The Notes may be issued on a continuing basis to one or more of the Dealers specified hereunder and any additional Dealer appointed under the Programme from time to time by the Issuer (each a Dealer and together the Dealers), which appointment may be for a specific issue or on an ongoing basis. References in this Base Prospectus to the relevant Dealer shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes.

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the "**CSSF**") as the competent authority under the Luxembourg Act dated 10 July 2005 on prospectus for securities, for the purpose of Directive 2003/71/EC, as amended, (the "**Prospectus Directive**") and relevant implementing measures in Luxembourg, as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Luxembourg for the purpose of giving information with regard to the issue of the Notes issued under the Programme described in this Base Prospectus during the period of twelve months after the date hereof. By approving this Base Prospectus, the CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Luxembourg Act dated 10 July 2005, as amended, on prospectus for securities. Application has been made to the Luxembourg Stock Exchange for the Notes issued under the Programme to be admitted during the period of twelve months after the date hereof to listing on the Official List and to trading on the regulated market of the Luxembourg Stock Exchange (a regulated market for the purposes of Directive 2004/39/EC). Application may also be made for notification to be given to competent authorities in other Member States of the European Economic Area in order to permit Notes issued under the Programme to be offered to the public and admitted to trading on regulated markets in such other Member States in accordance with the procedures under Article 18 of the Prospectus Directive.

References in this Base Prospectus to Notes being "listed" (and all related references) shall mean that such Notes are intended to be admitted to trading on the Luxembourg Stock Exchange's regulated market and have been admitted to the Official List of the Luxembourg Stock Exchange.

The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system, or to be issued on the basis that they will be admitted to listing, trading and/or quotation by such other or further stock exchanges, markets and/or quotation systems as may be agreed between the Issuer and the relevant Dealer.

Notes will be issued by the Issuer to raise funds for general funding purposes of the Issuer.

The Notes will be issued in series (each, a "**Series**") and each Series may be issued in one or more tranches (each, a "**Tranche**"). The terms of each Series will be set forth in the relevant Final Terms prepared in relation thereto in accordance with the provisions of this Base Prospectus.

This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive.

An investment in Notes issued under this Programme involves certain risks. For a discussion of certain risks and other factors that should be considered in connection with an investment in the Notes, see the section entitled "Risk Factors" of this Base Prospectus.

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each Tranche of Notes will be set out in a final terms document (the "**Final Terms**") which will be filed with the CSSF. Copies of Final Terms in relation to Notes to be listed on the Luxembourg Stock Exchange will also be published on the website of the Luxembourg Stock Exchange (www.bourse.lu).

The Notes will be held in dematerialised form on behalf of the beneficial owners, until redemption or cancellation thereof, by Monte Titoli S.p.A. with registered office and principal place of business at Piazza degli Affari 6, 20123 Milan, Italy ("**Monte Titoli**"), for the account of the relevant Monte Titoli Account Holders. The expression "Monte Titoli Account Holders" means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depository banks appointed by Euroclear Bank S.A./N.V. as operator of the Euroclear System ("**Euroclear**") and Clearstream Banking, société anonyme, Luxembourg ("**Clearstream, Luxembourg**"). The Notes have been accepted for clearance by Monte Titoli. The Notes will at all times be held in book entry form and title to the Notes will be evidenced by book entries pursuant to the relevant provisions of Italian Legislative Decree dated 24 February 1998, No. 58, as subsequently amended and supplemented ("**Legislative Decree No. 58**") and in accordance with CONSOB and Bank of Italy Joint Regulation dated 22 February 2008, as subsequently amended and supplemented ("**CONSOB and Bank of Italy Regulation**"). ("**Fitch Ratings**"), Baa2 by Moody's Investor Service Limited ("**Moody's**"), and BBB- by Standard and Poor's Rating Services ("**S&P**"). Each of Fitch Ratings, Moody's and S&P is established in the EEA and registered under Regulation (EC) No. 1060/2009, as amended (the "**CRA Regulation**"), and is included in the list of registered credit rating agencies published on the website of the European Securities and Markets Authority at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>. Notes issued under the Programme may be rated by any one or more of the rating agencies referred to above, or unrated. Where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable to the Programme. Whether or not each credit rating applied for in relation to the relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation (or is endorsed and published or distributed by subscription by such a credit rating agency in accordance with the CRA Regulation) unless (1) the rating is provided by a credit rating agency not established in the EEA but endorsed by a credit rating agency established in the EEA and registered under the CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the CRA Regulation.

Other relevant information

This Base Prospectus should be read and construed together with any supplements hereto and with any documents incorporated by reference herein (see "Documents Incorporated by Reference" below) on the basis that such documents are incorporated by reference in and form part of this Base Prospectus, and, in relation to any Tranche of Notes, should be read and construed together with the relevant Final Terms (as defined herein).

Neither this Base Prospectus nor any other information supplied in connection with the Programme or any Notes (a) is intended to provide the basis of any credit or other evaluation or (b) should be considered as a recommendation by the Issuer or any of the Dealers that any recipient of this Base Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each Investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer or invitation by or on behalf of the Issuer, any of the Dealers to any person to subscribe for or to purchase any Notes.

The Issuer has confirmed to the Dealers named under "Subscription and Sale" below that this Base Prospectus (including for this purpose, each relevant Final Terms) contains all information which is (in the context of the Programme, the issue, offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue, offering and sale of the Notes) and is not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

Legality of purchase

Neither the Issuer, the Dealers, nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Unauthorised information

No person is or has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuer or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by the Issuer or any Dealer.

No representation or warranty is made or implied by the Dealers or any of their respective affiliates, and neither the Dealers nor any of their respective affiliates make any representation or warranty or accept any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the condition (financial or otherwise) of the Issuer since the date thereof or, if later, the date upon which this Base Prospectus has been most recently supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Restrictions on distribution

This Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. The Issuer and the Dealers do not represent that this Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer or the Dealers which is intended to permit a public offering of any Notes or distribution of this Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Base Prospectus nor any advertisement or other

offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations. Persons into whose possession this Base Prospectus or any Final Terms comes are required by the Issuer and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see "Subscription and Sale".

The Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the "**Securities Act**"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Neither this Base Prospectus or any supplement thereto nor any Final Terms (or any part thereof) constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

Suitability of the Notes as an investment

The Notes may not be a suitable investment for all investors. Each potential Investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing, and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Programme limit

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed Euro 10,000,000,000 (and for this purpose, any Notes denominated in another currency shall be converted into Euro at the date of the agreement to issue such Notes in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement, as defined under "Subscription and Sale". In the event of increase of the original maximum amount of the Programme as set out herein, the Issuer shall prepare a supplement to the Base Prospectus.

Section D – Risks		
D.2	Risks Specific to the Issuer:	<p>[<i>Key information on the key risks that are specific to the issuer</i>]</p> <p>In purchasing Notes, investors assume the risk that the Issuer may be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments.</p>

		<p>It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified a number of factors which could materially adversely affect their businesses and ability to make payments due.</p> <ul style="list-style-type: none"> – The Notes do not benefit from any security or any guarantee of the Republic of Italy, therefore the Issuer will meet its payment obligations primarily through the results of its business activities; – CDP may segregate any of its assets, in whole or in part, in favour of the holders of asset-backed securities issued thereby or in favour of other lenders of CDP; – A part of the Issuer's total gross financial debt is represented by passbook savings accounts and postal savings bonds issued by the Issuer. The obligations of the Issuer in respect of such accounts and bonds are guaranteed by the Republic of Italy. According to applicable law, certain conditions will need to be fulfilled prior to the enforcement of the guarantee of the Republic of Italy; – The Conditions limit the ability of individual Noteholders to commence proceedings against the Issuer by conditioning the ability of any Noteholder to commence any such individual actions to the prior approval of a Meeting of all Series of Noteholders and failure by the Representative of the Noteholders to take such actions within a reasonable period of time; – The Issuer's credit ratings closely reflect the rating of the Republic of Italy and are therefore exposed to the risk of decline in the sovereign credit rating of Italy. Accordingly, on the basis of the methodologies used by rating agencies, further downgrades of Italy's credit rating may have a knock-on effect on the credit rating of Italian issuers, such as CDP; – The Issuer is subject to market risk due to interest rates fluctuations, price fluctuations and exchange rates with respect to both financial instruments and financial exposures; – The CDP Group is subject to credit risk which consists in the risk arising out of the possible default of one or more debtors with respect to their obligations towards CDP. CDP is therefore subject to the risk that its counterparties do not fulfil their own obligations when payments are due, as well as to the risk arising out of loans granted upon the basis of incomplete, false and untruthful information; – CDP is subject to liquidity risk arising out of the lack of funds needed in the ordinary course of business. For CDP
--	--	--

		<p>liquidity risk arises with respect to both its ability to collect funds on the market (funding liquidity risk), in connection with passbook savings accounts and postal savings bonds and its difficulty to liquidate its own assets (market liquidity risk);</p> <ul style="list-style-type: none"> – CDP is subject to the risk arising out of the concentration of the sources for the collection of savings. Postal savings in particular are the main source of collection of savings for CDP; – CDP is subject to the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events; – CDP, as parent company of the CDP Group, is exposed to some of the risks to which certain members of the CDP Group are subject. In particular, the members of the CDP Group are mainly subject to (i) market risk, (ii) liquidity risk, (iii) operational risk, and (iv) risks arising out of legal disputes.
<p>D.3</p>	<p>Risks Specific to the Notes:</p>	<p>There are also risks associated with the Notes. These include a range of market risks (including that there may be no or only a limited secondary market in the Notes, that the value of an investor's investment may be adversely affected by exchange rate movements where the Notes are not denominated in the investor's own currency, that any credit rating assigned to the Notes may not adequately reflect all the risks associated with an investment in the Notes and that changes in interest rates will affect the value of Notes which bear interest at a fixed rate), the fact that the conditions of the Notes may be modified without the consent of the holder in certain circumstances, that the holder may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law and that investors are exposed to the risk of changes in law or regulation affecting the value of Notes held by them.</p> <p>Key risks regarding to certain types of Notes</p> <p>The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.</p> <p>If the Issuer has the right to convert the interest rate on any Notes from a fixed rate to a floating rate, or vice versa, this may affect the secondary market and the market value of the Notes concerned.</p>

	<p>Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates.</p> <p>The value of Fixed Rate Notes may be adversely affected by movements in market interest rates.</p> <p>Credit ratings assigned to the Issuer or any Notes may not reflect all the risks associated with an investment in those Notes.</p> <p>[The Issuer may issue Notes with interest determined by reference to the CMS Rate (a "Relevant Factor"). Potential investors should be aware that:</p> <ul style="list-style-type: none"> (i) the market price of such Notes may be very volatile; (ii) they may receive no interest; (iii) payment of principal or interest may occur at a different time; (iv) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices; (v) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable is likely to be magnified; and (vi) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield. <p>Furthermore, with regard to Floating Rate Notes, where the reference rate used to calculate the applicable interest rate turns negative, the interest rate will be below the margin, if any, or may be zero. Accordingly, where the rate of interest is equal to zero, the holders of such Floating Rate Notes may not be entitled to interest payments for certain or all interest periods, it being understood that under no circumstances shall the Rate of Interest (as defined in the Conditions) be less than zero.]</p> <p>[The Issuer may issue Partly Paid Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.]</p>

RISK FACTORS

*The following are the risk factors relating to the Issuer and Notes to be issued under the Programme which prospective purchasers of Notes should consider prior to making an investment decision. Prospective purchasers of Notes should also read the information set out elsewhere in this Base Prospectus. Words and expressions defined in the "Terms and Conditions of the Notes" (the "**Conditions**") below or elsewhere in this Base Prospectus have the same meanings in this section.*

Prospective investors should note that the risks relating to the Issuer, its business sector and the Notes summarised in the section of this document headed "Summary" are the risks that the Issuer believes to be the most essential to an assessment by a prospective investor of whether to consider an investment in the Notes. However, as the risks which the Issuer faces relate to events and depend on circumstances that may or may not occur in the future, prospective investors should consider not only the information on the key risks summarised in the section of the Issuer headed "Summary" but also the risks and uncertainties described below.

In purchasing Notes, investors assume the risk that the Issuer may be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deem not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its businesses and ability to make payments due.

Risk factors relating to the Issuer

Issuer's ability to meet its obligations under the Notes

No security interest has been created by CDP for the benefit of the holders of the Notes for their claims under the Notes, nor will any guarantee be issued by the Republic of Italy in favour of the Noteholders. Consequently, the Issuer will meet its payment obligations under the Notes primarily through the result of its business activities. Noteholders will have access to all assets of CDP to satisfy their claims under the Notes, other than assets (if any) segregated by CDP in favour of certain creditors of CDP, pursuant to paragraph 18 of Article 5 of Italian Law Decree No. 269 of 30 September 2003 ("**Article 5**"). See further details on segregated asset under "Segregated Assets of CDP" below.

Segregated Assets of CDP

CDP may segregate any of its assets, in whole or in part, in favour of the holders of asset-backed securities issued thereby or in favour of other lenders of CDP. In particular, pursuant to paragraph 18 of Article 5, upon segregation, the assets may be attached only by the holders of the asset-backed securities or other lenders identified by CDP and constitute separate

assets in all respects from that of CDP until final discharge of their rights against CDP. In addition, notwithstanding the provisions of article 2447-*bis*, letter (a) of the Italian Civil Code on the segregation of assets by joint stock companies to specific businesses, the segregation of assets upon which CDP may resolve, is not subject to any limit sets by law.

Existing Indebtedness

As of 31 December 2015, the total gross financial debt of the Issuer amounted to Euro 323,562 million, of which Euro 252,097 million was represented by passbook savings accounts and postal savings bonds issued by the Issuer. The obligations of the Issuer in respect of such accounts and bonds are guaranteed by the Republic of Italy. In the event of enforcement of the guarantee, pursuant to the provisions of the decree of the MEF of 6 October 2004, the Republic of Italy has conditioned its repayment rights against CDP to the absence of any prejudice to (i) the claims of public bodies or entities arising from the Separate Account System, (ii) the continuance of CDP's corporate activities carried out pursuant to paragraph 7, letter (a) of Article 5; and (iii) its title to the shareholdings transferred to CDP by the MEF at the time of its transformation in a joint stock company.

Limited rights of individual Noteholders

The protection and exercise of the Noteholders' rights against the Issuer is one of the duties of the Representative of the Noteholders. The Conditions limit the ability of individual Noteholders to commence proceedings against the Issuer by conditioning the ability of any Noteholder to commence any such individual actions to the prior approval of a Meeting of all Series of Noteholders and failure by the Representative of the Noteholders to take such actions within a reasonable period of time.

Risk factors relating to the financial crisis

CDP and its subsidiaries (the "**CDP Group**") carry out their business activities mainly in Italy with public entities and, to a lesser extent, private entities, including banking groups operating in Italy. As such, the CDP Group's business is affected by the economic conditions affecting Italy, which, at the same time, are connected to European and global economic conditions.

The sovereign debt crisis

The sovereign debt crisis has raised concerns about the long-term sustainability of the European Monetary Union. In the last years, Greece, Ireland and Portugal have requested financial aid from European authorities and from the International Monetary Fund and are currently pursuing an ambitious programme of reforms. Cyprus has also requested financial help. While the risk of a sharp upward repricing in sovereign credit spreads has significantly diminished after the ECB launched the "Outright Monetary Transactions" (i.e. the direct acquisition, by the ECB, of short-term government bonds issued by countries heavily affected by the economic crisis), it has not completely faded.

In addition, such situation has raised concerns about the ordinary activity of many commercial and investment banks as well as insurance companies, some of which have become insolvent or have been forced to merge with other financial firms or have requested assistance from governments, central banks and international monetary funds which have intervened injecting liquidity into the economic system, also taking part to the restructuring of some financial entities. Moreover, other negative factors, such as increasing unemployment levels, have worsened the situation.

Persistent market tensions might affect negatively the funding costs and economic outlook of some euro member countries, including Italy. This, together with the risk that some countries (even if not very significant in terms of gross domestic product) might leave the euro area, would have a material and negative impact on Italy's sovereign debt and economic conditions and, therefore, on CDP and its operations.

Any deterioration of the Italian economy would have a material adverse effect on CDP, in light of the CDP Group's significant exposure to the Italian economy. Since the beginning of the sovereign debt crisis in May 2010, credit quality has generally declined, as reflected by downgrades suffered by several countries in the euro-zone, including Italy. The Issuer's credit ratings closely reflect the rating of the Republic of Italy and are therefore exposed to the risk of decline in the sovereign credit rating of Italy. Accordingly, on the basis of the methodologies used by rating agencies, further downgrades of Italy's credit rating may have a knock-on effect on the credit rating of Italian issuers, such as CDP.

Despite the several initiatives of supranational organisations to deal with the heightened sovereign debt crisis in the euro area, global markets remain characterised by high volatility. Any further acceleration of the European sovereign debt crisis could likely significantly affect, among other things, the recoverability and quality of the sovereign debt securities held by CDP.

Relationship with the Republic of Italy

The nature of CDP's business, as lender of funding to Italian public entities thereby providing a service of general economic interest, implies that, in addition to the risks connected with the need for renewal upon expiry of agreements and concessions, CDP bears the risks associated with its special relationship with the Italian government, which is CDP's main shareholder, and therefore may exercise a significant influence on CDP's operations.

Risk factors relating to market conditions affecting CDP

Market risk

Market risk means the risk of losses arising from adverse fluctuations of the value of assets (or financial exposures), including securities, which may decrease (or increase) following the fluctuations of some market conditions. Such risk may arise from the fluctuations of interest

rates, credit spread, exchange rates, shares prices or any other fluctuating parameter, such as market volatility and the implied probabilities of default of the various financial assets.

The market risk to which CDP is subject concerns both financial instruments, including derivatives, and financial exposures which are influenced by credit spread and interest rates during different observation periods. The market risk includes, inter alia, the following risks:

- risks connected with interest rates fluctuations;
- risk relating to price fluctuations; and
- risks connected with exchange rates.

Risks connected with interest rate fluctuations

The risk arising out of the fluctuation of interest rates consists in the risk that the value and yield of assets and liabilities would vary following market fluctuations of interest rates.

In the context of its business activity, CDP is subject to interest rate risk in different ways, in particular through repricing, term structure, basis and optionality. Moreover, CDP carries out collection of savings and lending activities. The value and yield both of the credits arising out of loans granted by CDP and the exposures connected with the collection of savings carried out by CDP are subject to interest rates fluctuations which, as such, are influenced by various parameters not under the Issuer's control, such as monetary policies, macroeconomic and political conditions. In particular, fluctuations of interest rates may increase costs related to lending activities carried out by CDP faster and more substantially than yields on assets, for example because of a mismatch between maturities, or given a maturity between interest rate sensitivities, of assets and liabilities.

At the same time, decreasing interest rates may cause a minor yield arising from the assets held by CDP which may not match a similar decrease in the cost of funding. Such situations as well as the current scenario characterised by very low interest rates may affect the value of CDP's assets and exposures. This is due mainly to the fact that CDP invests its liquidity mainly in an account held with the central Treasury of the Italian State indexed to current government bonds yields. Therefore, and if such yields decrease CDP might not be able to reduce the costs related to the collection of savings accordingly.

In particular, the risk to which CDP is subject regarding interest rates is not properly comparable to the one in the banking sector due to the early redemption option in favour of the holders of postal savings bonds which represent the main sources of long-term collection of savings used by CDP. The value of the put option and the bondholder's incentive to exercise the option is strongly influenced by interest rate levels and trends.

Therefore, the increasing and decreasing of interest rates may adversely affect the financial situation and operating results of CDP and, therefore, the Issuer's ability to fulfil its obligations under the Notes.

In addition, with respect to the issue of postal savings bonds indexed to consumer prices in Italy, CDP is also subject to the inflation risk. In particular, such risk is due to the fact that as consequence of the increasing inflation rate, CDP shall pay a greater amount of interests to bondholders. Therefore, a rise of inflation rate in Italy may adversely affect the financial situation and the operating results of CDP and, therefore, the ability of the Issuer to fulfil its obligations under the Notes. CDP safeguards the inflation risk using methodologies equivalent to those adopted in the banking sector for monitoring interest rates risks.

CDP monitors its exposure and the interest rate risk to which is subject through an evaluation of the response of its financial statements data to interest rates fluctuations, quantified by means of so called "sensitivity" analysis (for less severe turbulence) or "stress test" (for more severe turbulence). In any event, even though the Issuer has implemented an interest rate risk monitoring structure, there is no guarantee that such structure would be effective and suitable for containing such risk for CDP. Such situation may adversely affect the financial situation and the operating results of CDP and, therefore, the ability of the Issuer to fulfil its obligations under the Notes.

Risk relating to prices fluctuations

Price risk consists in the risk relating to price fluctuations of equity securities, equity-linked bonds, undertaking for collective investments and, index-linked, derivatives.

The CDP Group holds interests in Italian corporations and investment funds and, therefore, it is subject to the risk that the value of such interests may be affected by fluctuations of the relevant shares' or units' value as well as by fluctuations of the relevant derivatives' value.

A reduction of the value of such investments may adversely affect the financial situation and the operating results of CDP and, therefore, the ability of the Issuer to fulfil its obligations under the Notes.

In addition, CDP is subject to the risks arising out of its direct and indirect shareholdings (in listed and non-listed companies) and from the units held in investment funds. Among the interests held by CDP, there are those in ENI S.p.A., SACE S.p.A. ("**SACE**"), CDP RETI S.p.A. ("**CDP RETI**"), CDP Equity S.p.A. ("**CDP Equity**") and Fintecna S.p.A. ("**Fintecna**").

Risks connected with exchange rates

Exchange rate risk is the risk that changes in exchange rates might have a negative impact on the net income or economic value of CDP.

Certain activities of CDP can generate exchange rate risk. CDP undertakes such activities only if covered by appropriate exchange rate hedges.

The activities of CDP that can engender such exposure are normally associated with the issue of bonds denominated in foreign currencies, equity investments the value of which can be

exposed to changes in exchange rates, the purchase of bonds denominated in foreign currencies and the granting of loans denominated in currencies other than the Euro under the “export bank” system.

Credit Risk

The CDP Group is subject to credit risk which consists in the risk arising out of the possible default of one or more debtors with respect to their obligations towards CDP. The business activity carried out by the CDP Group, and in particular by the CDP Group parent company, consists in the activity of, *inter alia*, granting loans to Italian public entities, local entities and companies, hedging activities through derivatives, treasury activities in the context of both the separate account system ("**Separate Account System**") and ordinary account system ("**Ordinary Account System**"). CDP is therefore subject to the risk that its counterparties do not fulfil their own obligations when payments are due, as well as to the risk arising out of loans granted upon the basis of incomplete, false and untruthful information.

Liquidity risk

The liquidity risk consists in the risk arising out of the lack of funds needed in the ordinary course of business and, as consequence thereof, in the risk arising out of the inability to fulfil, without any exorbitant costs, payment obligations when due.

For CDP liquidity risk arises with respect to both its ability to collect funds on the market (funding liquidity risk), in connection with passbook savings accounts and postal savings bonds representing the main exposures in the Separate Account System, and its difficulty to liquidate its own assets (market liquidity risk).

In order to face issues related to the need of liquidity in the context of the Ordinary Account System, CDP raises funds on capital markets or avails itself of loans granted by the European Investment Bank at conditions substantially equivalent to those available to banks. CDP has adopted procedures to avoid the rising of unexpected needs of liquidity by timely predicting demand of supply, by setting limits to the mismatching of the maturities between asset and liabilities, by monitoring its short-term liquidity and its liquidity requirements in the short, medium and long-term period. Moreover, among the procedures adopted to face liquidity risk, CDP has implemented a system called “Contingency Funding Plan”, which describes the processes and the strategies for managing a possible liquidity crisis.

Anyway, there is no guarantee that the procedures adopted in order to avoid liquidity risk are effective and sufficient to mitigate such risk for CDP. Therefore, the inefficacy of such procedures may adversely affect financial situation and operating results of CDP and, as consequence thereof, affect the Issuer’s ability to fulfil its obligations under the Notes.

Risk factors relating to funding

CDP is subject to the risk arising out of the concentration of the sources for the collection of savings. In particular, postal savings are the main source of collection for CDP.

As at 31 December 2015, the total stock of postal savings, including passbook savings accounts and postal savings bonds pertaining to CDP, came to €252,097 million, compared with €252,038 million at the end of 2014.

More specifically, the carrying amount of passbook savings accounts reached €118,745 million, while postal savings bonds, which are measured at amortised cost, came to €133,352 million.

Passbook savings accounts (*libretti di risparmio postale*) are financial products, issued by CDP and placed by Poste Italiane S.p.A., represented by registered or bearer deposits, redeemable at demand, assisted by the State guarantee. Postal savings bonds (*buoni fruttiferi postali*) are registered financial products, issued by CDP and placed by Poste Italiane S.p.A., with maturity from 18 months to 20 years, redeemable at demand, assisted by the State guarantee.

Postal savings products (*i.e.* postal savings bonds and passbook savings accounts) are placed exclusively by Poste Italiane S.p.A..

On 4 December 2014, CDP and Poste Italiane S.p.A. entered into an agreement for the placement of postal saving products (the "**Agreement**"). The Agreement has a duration of 5 years and shall be effective for the period 2014 – 2018.

Any possible variation of the corporate governance of Poste Italiane S.p.A., without any variation of the majority, shall not affect the Agreement and the placement activities carried out by Poste Italiane S.p.A with respect to the postal saving products.

In light of the above, the Agreement poses a risk of concentration of CDP funding sources. In any event, the Agreement shall assure the stabilization of the funding volumes and the management of extraordinary situations such as those regarding the variation of the corporate governance of the parties, even on the basis of the recent amendments introduced by Italian Law 23 December 2014, No. 190.

In order to mitigate the risk of concentration of the funding sources, some measures have been considered to improve efficiency, consolidation and differentiation of funding for CDP, which should provide continuous and stable funding volumes. In particular the sources of institutional funding have been enhanced with the establishment of the CDP's "*Cassa depositi e prestiti S.p.A. Euro 10,000,000,000 Debt Issuance Programme*", the launch of a commercial paper program, the negotiation of new lines of credit granted by the European Investment Bank and other supranational institutions and the establishment of a new program of retail bonds. Anyway, there is no guarantee that the measures implemented in order to avoid funding concentration risk are effective and sufficient to mitigate such risk for CDP. Therefore, the inefficacy of such measures may adversely affect financial situation and operating results of CDP and, as consequence thereof, affect the Issuer's ability to fulfil its obligations under the Notes.

Operational Risk

The CDP group is subject to operational risk (*i.e.* the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events). Such risk includes the risk of losses resulting from internal or external fraud, human error, employment relationships and workplace safety, business disruption, system unavailability, breach of contract, process management, damage to company assets and natural disasters.

CDP has adopted the guidelines established by the Basel Committee for the banking industry as the benchmark for managing operational risk. However, there is no guarantee that the measures implemented in order to mitigate operational risk are effective and sufficient to mitigate such risk for CDP. Therefore, the inefficacy of such measures may adversely affect financial situation and operating results of CDP and, as consequence thereof, affect the Issuer's ability to fulfil its obligations under the Notes.

Risk factors arising out of companies subject to CDP control

CDP Group is subject to the same risks to which certain companies forming part of the CDP Group (such as SACE, Terna S.p.A. ("**Terna**") (as a subsidiary of CDP RETI), SNAM S.p.A. ("**SNAM**") (as a subsidiary of CDP RETI), Fintecna and its subsidiary Fincantieri S.p.A. ("**Fincantieri**"), CDP Equity, SIMEST S.p.A. ("**SIMEST**") and CDP Immobiliare S.r.l. ("**CDP Immobiliare**"), are subject. In particular, the members of the CDP Group are mainly subject to (i) market risk, (ii) liquidity risk and credit risk, (iii) operational risk and (iv) risks arising out of legal disputes (see also "*Description of Cassa depositi e prestiti S.p.A. – Legal Proceedings – Legal disputes relating to certain subsidiaries of CDP*").

Dividends accruing in 2015 came to approximately €1,532 million, mainly attributable to the equity investments in ENI (€899 million), CDP Reti (€112 million), Fondo Strategico Italiano (€129 million), SACE (€280 million), Fintecna (€85 million) and CDP GAS (€25 million). This flow of dividends decreased by approximately €310 million compared to the amount for the same period in 2014 (€1,842 million).

SACE Group

SACE is mainly subject to (i) insurance risk; (ii) financial risks and (iii) risks arising out of legal disputes (see also "*Description of Cassa depositi e prestiti S.p.A. – Legal Proceedings – Legal disputes relating to certain subsidiaries of CDP*").

As at 31 December 2015, the total exposure of SACE, calculated as the sum of credit and guarantees issued (principal and interest) amounted to €41.9 billion, an increase of 11.3 per cent. compared with the end of 2014. The pace of growth is mainly due to the guarantee portfolio, which accounted for 97 per cent. of the overall exposure.

The breakdown by geo-economic area showed an increase in the exposure to EU countries (41.7 per cent. compared with 41.4 per cent. in 2014), an increase of 12.4 per cent. in respect of the previous year: as before, Italy continued to rank first in terms of concentration, with a

relative weight of 20.6 per cent.. It was followed by other European and Commonwealth of Independent States countries, which, with a 18.5 per cent. share of the portfolio (down in comparison with 2014, when it amounted to 20.1 per cent.), recorded only a slight increase in exposure, equal to +2.1 per cent..

The other geo-economic areas accounted for 39.8 per cent. of the portfolio as a whole and showed an 18.9 per cent. average exposure increase over 2014: Americas with an increase of +37.7 per cent. (with a slightly lower share of the portfolio, increasing from 14 per cent. in 2014 to 17.3 per cent. in 2015), Middle East and Northern Africa with a decrease of -5.3 per cent. (whose share of the portfolio decreased from 2014 to 2015, at 11.2 per cent.), Far East and Oceania with an increase of 4.2 per cent. (with a lower share of the portfolio from 2014 to 2015 , at 8.7 per cent.) and, finally, Sub-Saharan Africa, with an increase of 38.8 per cent. (with a share of the portfolio slightly up from 2.1 per cent. in 2014 to 2.6 per cent. in 2015).

The receivables component in US dollars decreased compared with last year, from 52.7 per cent. to 51.4 per cent., while 43 per cent. of the guarantee portfolio was denominated in that currency (versus 42 per cent. in 2014): this was also due to the strengthening of the US dollar versus the Euro, from 1.2141 in 2014 to 1.0887 in 2015. The exchange rate risk on the receivables and guarantees portfolio is mitigated in part through the natural hedge provided by management of the provision for unearned premium and in part through asset-liability management techniques implemented by the company.

The breakdown by sector continued to show a high level of concentration, with the top five sectors representing 72.1 per cent. of the overall private-sector portfolio. Oil and gas continued to be the main sector, accounting for 21.8 per cent. (up from 23.6 per cent. in 2014) and an increased exposure (by 3.9 per cent.) compared to 2014. Noteworthy is also the increase in guarantees to the cruise sector by 78.3 per cent. (with a share that grew from 13.1. per cent. in 2014 to 20.7 per cent.) and to the infrastructure and construction sector by 3.1 per cent. (with a share that decreases from 15.9 per cent. in 2014 to 14.6 per cent.).

SACE BT S.p.A. ("**SACE BT**"), as a subsidiary of SACE, is also subject to insurance risks. In this respect, the total portfolio of SACE BT as at 31 December 2014 compared to 2015 was increasing of +5.9 per cent. and amounted to €38.5 billion. The policies at risk under the credit insurance business line were 100,922 at 31 December 2015 (-7.5 per cent. compared to December 2014), for a corresponding value of €7.8 billion. Nominal risk exposure at the same date, which is defined taking into account deferral in payment terms, contract extensions and deductibles, amounted to €7.0 billion, down -7.4 per cent. from the previous year. The average amount insured per debtor stood at €89 thousand. The portfolio was primarily concentrated in EU countries (81.8 per cent.), with Italy accounting for 59.1 per cent..

Wholesale Trade, Retail Trade and Agriculture were the top three industries for this line of business, accounting for 21.9 per cent., 9.5 per cent. and 8.3 per cent. of total exposure respectively.

As at 31 December 2015, the exposure of the surety business, namely the amount insured, amounted to €6.6 billion, slightly down (a decrease of -0.9 per cent.) compared to December 2014. Guarantees in tenders represent 64.1 per cent. of the exposure, followed by guarantees for tax payments and reimbursements (31.2 per cent.).

The portfolio, consisting of more than 34 thousand contracts, was concentrated in the north of Italy (65.5 per cent.).

Nominal exposure of the construction/other damages to property business was equal to €24.1 billion. The number of existing policies was equal to 7,587. Ten-year liability policies accounted for 45.4 per cent. of the portfolio, construction all risk and erection all risk policies for 42.7 per cent. and non-life policies for the remaining 11.9 per cent..

With respect to financial risks, the financial management of SACE aims to achieve the two following macro-objectives:

- preserving the value of SACE's assets: in line with developments of the reference regulatory and financial framework, the SACE Group (composed by SACE and its subsidiaries), through a process of integrated asset and liability management, hedges (both directly and indirectly) in order to balance negative variances in the guarantee and loan portfolio in the event of adverse changes to risk factors;
- contributing to the achievement of corporate financial goals through targeted, effective investments.

This activity confirmed that values were in line with the limits defined for each company and each type of investment.

During the year 2015, a sensitivity analysis is conducted on the SACE Group's investment portfolio, specifically for bonds, shares and stakes in collective investment undertakings. The sensitivity analysis of the securities portfolio (excluding the HTM component) involves stress tests and analysis scenarios calibrated on the basis of recent economic and financial developments. Stress tests were performed for simulated scenarios of rising and falling yield curves and equity prices. In addition, tests were also performed for scenarios with rising oil prices and an appreciation of the euro against the US dollar, with propagation and correlation effects. The results confirmed the strength of the portfolio even in situations of considerable strain in financial markets and on the main commodities.

Scenario analyses also produced excellent results, confirming the soundness of adopting a highly prudent investment policy in an environment of dramatic shocks for financial markets.

As regards the non-current portfolio, the sensitivity analysis performed with the calculation of the basis point value generated a very low value (€0.51 million), substantially in line with 2014 (€0.58 million),

Terna Group

As a normal part of operations, Terna, the parent company of the Terna Group, and its subsidiaries (the "**Terna Group**") are exposed to a variety of financial risks: market risk (exchange rate risk, interest rate risk and inflation risk), liquidity risk and credit risk. Terna's risk management policies seek to identify and analyse the risks which the Terna Group is exposed to, establishing appropriate limits and controls and monitoring risks and compliance with such limits. These policies and the related systems are reviewed on a regular basis in order to consider any changes in market conditions or in the operations of the Terna Group. The exposure of the Terna Group to the aforementioned risks is substantially represented by the exposure of Terna, as parent company of the Terna Group. As a part of the financial risk management policies approved by its board of directors, Terna has established the responsibilities and operating procedures for financial risk management, specifically as it concerns the instruments to be used and the precise operating limits in managing them.

SNAM Group

SNAM, the parent company of the SNAM Group, established the Enterprise Risk Management ("**ERM**") unit, reporting directly to its Chief Executive Officer, in order to monitor the integrated corporate risk management process for all its subsidiaries (together with SNAM, the "**SNAM Group**"). ERM's main goals are defining a risk assessment model that enables the identification of the aforementioned risks based on common, cross-functional logics and the prioritisation of risks, as well as the consolidation of mitigation actions and the development of a reporting system.

The ERM method adopted by the SNAM Group for the structured, consistent identification, assessment, management and control of risks is in line with the reference frameworks and existing international best practice (COSO Framework and ISO 31000). ERM operates within the wider context of SNAM's risk management and internal control system.

The main risks identified, monitored and managed by SNAM within the scope of corporate risks are: (i) market risk resulting from exposure to interest rates and natural gas price fluctuations; (ii) credit risk resulting from the possibility of default by a counterparty; (iii) liquidity risk resulting from the lack of financial resources to fulfil short-term commitments; (iv) rating risk; (v) default risk and debt covenants; (vi) operational risk and (vii) specific risks linked to the sectors in which the group operates.

Fintecna Group

In 2015, Fintecna and its subsidiaries (the "**Fintecna Group**") continued their monitoring of the main risk factors affecting their operations. The main operational risk factors concerning Fintecna, as parent company of the Fintecna Group, and the special purpose entities (subject to the direct control of Fintecna) dedicated to liquidation activities, relate to the handling of ongoing complex litigation mostly related to the companies already in liquidation that have come under its control over the years. Referring to the mentioned special purpose entities, other operational risk factors are those related to the management of environmental remediation and the acquired real estate assets. Taking into consideration the complexity and

considerable uncertainty of these situations, Fintecna's directors – acting on the best available information – periodically update the evaluations of the adequacy of the provisions recognised in the financial statements.

In addition, Fintecna is subject, *inter alia*, to (i) liquidity risk, (ii) credit and counterparty risk, (iii) other financial risks and (iv) risks arising out of legal disputes (see also “*Description of Cassa depositi e prestiti S.p.A. – Legal Proceedings – Legal disputes relating to certain subsidiaries of CDP*”).

Furthermore, particular attention is finally placed by the company to the compliance risk, considering the possible reputational implications that could arise from it and in connection with environmental, health and safety aspects.

Fincantieri Group

The performance of Fincantieri and its subsidiaries (the "**Fincantieri Group**") is strongly dependent on changes in their clients' workloads and good relations with some of them constitute one of the Fincantieri Group's strengths. The shipbuilding industry, in which Fincantieri operates, has historically been characterised by cyclical performance, responding to trends in its reference markets.

In order to mitigate the impact of the cyclical performance of the shipbuilding industry, in recent years the Fincantieri Group has pursued a strategy of diversification, expanding its business both at product level and at geographical level. In addition, commercial policies, the development of new products or an increase in production capacity by its competitors could lead to competition on price, with a corresponding reduction in profit margins.

Fincantieri seeks to maintain its competitive position in its business areas by ensuring high standards of product quality and innovation, alongside the pursuit of cost optimisation solutions and flexible use of technical and financial solutions in order to remain competitive in the industry in terms of its commercial offer.

In its pursuit of business opportunities in emerging markets, the Fincantieri Group seeks to mitigate country and/or corruption risk by focusing on commercial actions that are supported by intergovernmental agreements or other forms of cooperation between States.

Fincantieri Group is also subject to (i) risks connected to operational complexity, managing orders and outsourcing production; (ii) compliance risk; (iii) risks connected to exchange rate changes and (iv) risks connected to existing debt. Nonetheless Fincantieri is exposed to market risk, with specific regard to fluctuations in oil prices, given its exposure to the energy equipment sector through its subsidiary Vard Group AS.

SIMEST

CDP holds a 76 per cent. shareholding in SIMEST, with the remaining 24 per cent. being held by other private sector shareholders including banks and trade associations. SIMEST

works alongside Italian companies and may acquire up to 49 per cent. of the share capital of foreign firms, both directly and through a venture capital fund, in order to provide assistance to Italian companies' (“**Partners**”) that wish to invest in companies incorporated outside of the European Union. In addition, SIMEST may acquire shareholdings of up to 49 per cent. in Italian companies and/or their EU subsidiaries that develop investments in production and in innovation and research on market terms without financial assistance.

Upon acquisition of the investment, the Partners undertake to purchase SIMEST’s interest at the end of the investment period (up to eight years). The commitment to repurchase is in some cases also covered by banking/insurance guarantees, collateral and/or corporate guarantees.

In the light of the above, SIMEST is ultimately exposed to the credit risk of the Partners.

In the course of 2015, SIMEST's internal procedures for the management and control of the Partners' credit risk has been reviewed and specific guidelines for the investment phase and the monitoring phase of each transaction have been developed.

The risk management function and the internal audit function of SIMEST have been outsourced to CDP, in accordance with a fee-based service level agreement.

CDP Immobiliare Group

Following the acquisition of direct control of CDP Immobiliare by CDP, the new risk monitoring procedures for CDP Immobiliare’s subsidiaries (which, together with CDP Immobiliare as parent company, compose the **CDP Immobiliare Group**) - including operational ones - and the action plan for subsequent implementation are currently being shared with CDP.

In particular, the CDP Immobiliare Group is subject, *inter alia*, to (i) market risks (*i.e.* risks relating to fluctuations in the market value of properties in the portfolio, risk linked with interest rate trend), (ii) liquidity risk, (iii) credit risk and (iv) risks arising out of legal disputes (see also “*Description of Cassa depositi e prestiti S.p.A. – Legal Proceedings – Legal disputes relating to certain subsidiaries of CDP*”).

The risk management function, the compliance function and the internal audit function of CDP Immobiliare have been outsourced to CDP, in accordance with a fee-based service level agreement.

CDP Equity (previously Fondo Strategico Italiano ("FSI"))

CDP holds a 77.702 per cent. shareholding in FSI, whilst Fintecna and Banca d’Italia hold a 2.298 per cent. and a 20 per cent. shareholding respectively. FSI has a total shareholder’s equity of €4.4 billion and operates in the acquisition of minority stakes in companies that have a relevant national interest for the Italian economy. As a statutory requirement, FSI can

only assist with investments in companies with a stable outlook in terms of financial, economic and balance sheet equilibrium.

In March 2016, FSI's shareholders passed a resolution to change the name of the company to CDP Equity S.p.A. in order to emphasise the renewed focus of the company on long term investments in large Italian corporates with high systemic importance. For the purpose of mid and large-size investments, a new fund management company, named Fondo Strategico Italiano SGR S.p.A. ("**FSI SGR**"), will be constituted. FSI SGR will specifically focus on growth capital investments with the promotion, in the course of 2016, of a closed fund. FSI SGR's application to be authorized as an asset management is currently under review by the Bank of Italy.

In the course of 2015, FSI's financial performance had a direct material impact on CDP's results, further to the distribution of dividends to CDP.

FSI has a solid profile in terms of liquidity risk. In 2015, available cash resources accounted for more than the invested capital. FSI's balance sheet is currently debt-free while cash in excess is allocated mainly to time deposits.

Nonetheless, FSI is subject to market risk, with specific regard, among the others, to fluctuations in the prices of raw materials (i.e. oil and natural gas) and exchange rates.

Since October 2015, the risk management function of FSI has been outsourced to CDP, in accordance with a fee-based service level agreement.

Risk factors relating to the Notes

Suitability of the Notes as an investment

The Notes may not be a suitable investment for all Investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor's currency;

- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing, and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

There is no active trading market for the Notes currently

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Although application has been made to be admitted to the Official List and traded on the regulated market of the Luxembourg Stock Exchange, there is no assurance that such application will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes. Illiquidity may have a severely adverse effect on the market value of Notes.

Early Redemption of the Notes for tax reasons

In the event that the Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the Republic of Italy or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Conditions.

Notes subject to optional redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Fixed Rate Notes

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of such Notes.

Floating Rate Notes

The Issuer may issue Notes with interest determined by reference to the CMS Rate (a "**Relevant Factor**"). Potential investors should be aware that:

- (i) the market price of such Notes may be very volatile;
- (ii) they may receive no interest;
- (iii) payment of principal or interest may occur at a different time;
- (iv) a Relevant Factor may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- (v) if a Relevant Factor is applied to Notes in conjunction with a multiplier greater than one or contains some other leverage factor, the effect of changes in the Relevant Factor on principal or interest payable is likely to be magnified; and
- (vi) the timing of changes in a Relevant Factor may affect the actual yield to investors, even if the average level is consistent with their expectations. In general, the earlier the change in the Relevant Factor, the greater the effect on yield.

Furthermore, with regard to Floating Rate Notes, where the reference rate used to calculate the applicable interest rate turns negative, the interest rate will be below the margin, if any, or may be zero. Accordingly, where the rate of interest is equal to zero, the holders of such Floating Rate Notes may not be entitled to interest payments for certain or all interest periods, it being understood that under no circumstances shall the Rate of Interest (as defined in the Conditions) be less than zero.

Partly paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

Notes issued at a substantial discount or premium

The market value of Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Fluctuations in exchange rates may adversely affect the value of Notes.

The Issuer will pay principal and interest on the Notes in the Specified Currency (as defined in the applicable Final Terms). This presents certain risks relating to currency conversions if Noteholder's financial activities are denominated principally in a currency or currency unit (the "**Noteholder's Currency**") other than the Specified Currency. These include the risk that there may be a material change in the exchange rate between the Specified Currency and the Noteholder's Currency or that a modification of exchange controls by the applicable authorities with jurisdiction over the Noteholder's Currency will be imposed. The Issuer has no control over the factors that generally affect these risks, such as economic, financial and political events and the supply and demand for the applicable currencies. Moreover, if payments on the Notes are determined by reference to a formula containing a multiplier or leverage factor, the effect of any change in the exchange rates between the applicable currencies will be magnified. In recent years, exchange rates between certain currencies have been volatile and volatility between such currencies or with other currencies may be expected in the future. An appreciation in the value of the Noteholder's Currency relative to the Specified Currency would decrease (i) the Noteholder's Currency equivalent yield on the Notes, (ii) the Noteholder's Currency equivalent value of the principal payable on the Notes and (iii) the Noteholder's Currency equivalent market value of the Notes. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, Noteholders may receive less interest or principal than expected, or no interest or principal.

No physical document of title issued in respect of the Notes

Notes issued under the Programme will be in dematerialised form and evidenced at any time through book entries pursuant to the relevant provisions of Legislative Decree No. 58 and in accordance with CONSOB and Bank of Italy Regulation. In no circumstance would physical documents of title be issued in respect of the Notes. While the Notes are represented by book entries, investors will be able to trade their beneficial interests only through Monte Titoli and the authorised financial intermediaries holding accounts on behalf of their customers with Monte Titoli. As the Notes are held in dematerialised form with Monte Titoli, investors will have to rely on the procedures of Monte Titoli and the financial intermediaries authorised to hold accounts therewith, for transfer, payment and communication with the Issuer.

The Representative of the Noteholders may agree to modifications and waivers without convening a meeting of the Noteholders

Pursuant to the Rules of Organisation of Noteholders, the Representative of the Noteholders for each Series of Notes may, without the consent of the Noteholders of such Series and without regard to the interests of particular Noteholders, agree to certain amendments to, or modifications of, or waivers or authorisations of any breach of the Conditions of the relevant Series of Notes. Any such modification, waiver, authorisation or determination shall be binding upon the Noteholders and, unless the Representative of the Noteholders determines otherwise, any such modification shall be notified to the Noteholders in accordance with Condition 18 (Notices) as soon as possible thereafter.

The Conditions contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders, including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Conflicts may arise between the interests of the Calculation Agent and the interests of the holders

Potential conflicts of interest may exist between the Calculation Agent (if any) and Noteholders (including where a Dealer acts as Calculation Agent), including with respect to certain determinations and judgments that such Calculation Agent may make pursuant to the Conditions that may influence amounts receivable by the Noteholders during the term of the Notes and upon their redemption.

Issues of further Series and interests of Noteholders

Under the Programme, CDP may create and issue new Series of Notes without the consent of the existing Noteholders to raise funds to finance general funding purposes of the Issuer. Both prior to and following the occurrence of an Event of Default, all Notes will rank *pari passu* among themselves. Circumstances could potentially arise in which the interests of the holders of different Series of Notes could differ.

Rating

The Programme has been assigned a rating of "BBB+" by Fitch Ratings, "Baa2" by Moody's, and "BBB-" by S&P. Each of Fitch Ratings, Moody's and S&P is established in the EEA and registered under the CRA Regulation, and is included in the list of registered credit rating agencies published on the website of the European Securities and Markets Authority at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>. Tranches of Notes issued under the Programme may be rated or unrated and, where an issue of Notes is rated, its rating will not necessarily be the same as the rating applicable to the Programme. The rating may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above, and the other factors that may affect the value of the Notes. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any adverse

change in an applicable credit rating could adversely affect the trading price for the Notes issued under the Programme.

Whether or not each credit rating applied for in relation to the relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation (or is endorsed and published or distributed by subscription by such a credit rating agency in accordance with the Regulation) unless the rating is provided by a credit rating agency operating in the European Union before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused.

Withholding under the EU Savings Directive

Under Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (the "**EU Savings Directive**"), Member States were required to provide to the tax authorities of another Member State details of payments of interest or similar income paid by a person established in a Member State to or for the benefit of an individual resident in that other Member State or to certain limited types of entities established in that other Member State.

On 10 November 2015 the Council of the European Union adopted a Council Directive repealing the EU Savings Directive with effect from 1 January 2017, in the case of Austria and from 1 January 2016, in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the EU Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The new regime under Council Directive 2011/16/EU (as amended) is in accordance with the Global Standard released by the Organisation for Economic Cooperation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the EU Saving Directive, although it does not impose withholding taxes.

As a consequence, under the EU Savings Directive, Austria is still required during financial year 2016 to operate a withholding system in relation to such payments.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent (as defined in the Conditions of the Notes) nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying

Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

U.S. Foreign Account Tax Compliance Withholding

Whilst the Notes are cleared through Monte Titoli, in all but the most remote circumstances, it is not expected that the new reporting regime and potential withholding tax imposed by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("**FATCA**") will affect the amount of any payment received by Monte Titoli (see "*Taxation – United States Foreign Account Tax Compliance Act*"). However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. Investors should consult their own tax adviser to obtain a more detailed explanation of FATCA and how FATCA may affect them. The Issuer's obligation under the Notes is discharged once it has made payment to, or to the order of, Monte Titoli, and the Issuer has therefore no responsibility for any amount thereafter transmitted through Monte Titoli and custodians or intermediaries. Further, foreign financial institutions in a jurisdiction which has entered into an intergovernmental agreement with the United States (an "**IGA**") are generally not expected to be required to withhold under FATCA or an IGA (or any law implementing an IGA) from payments they make.

The Issuer believes that the risks described above are the principal risks inherent in the holding of Notes issued under Programme for holders of the Notes of any Series but the inability of the Issuer to pay interest or repay principal on the Notes of any Series may occur for other reasons. While the various structural elements described in this Base Prospectus are intended to lessen some of these risks for holders of Notes of any Series, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of Notes of any Series of interest or principal on such Notes on a timely basis or at all.

IMPORTANT INFORMATION RELATING TO OFFERS TO THE PUBLIC OF NOTES

Certain Tranches of Notes with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as an "**Offer to the Public**".

If, in the context of an Offer to the Public, you are offered Notes by any entity, you should check that such entity has been given consent to use this Base Prospectus for the purposes of making an offer before agreeing to purchase any Notes. The following entities have consent to use this Base Prospectus in connection with an Offer to the Public:

- any entity named as a Dealer or Manager in the applicable Final Terms;
- any financial intermediary specified as being an Initial Authorised Offeror in the applicable Final Terms as having been granted specific consent to use the Base Prospectus;
- any financial intermediary named on the Issuer's website (www.cdp.it) as an Authorised Offeror in respect of the relevant Offer to the Public (if that financial intermediary has been appointed after the date of the applicable Final Terms); and
- if Part B of the applicable Final Terms specifies "General Consent" as "Applicable", any financial intermediary authorised to make such offers under the Markets in Financial Instruments Directive (Directive 2004/39/EC) who has published the Acceptance Statement (set out below) on its website.

The entities listed above have been given consent to use the Base Prospectus only during the Offer Period specified in the applicable Final Terms and only in the Public Offer Jurisdictions specified in the applicable Final Terms. Other than as set out above, the Issuer has not authorised the making of any Offer to the Public by any person and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Offer to the Public of Notes.

Please see below for certain important legal information relating to Offers to the Public.

Offers to the Public of Notes in the European Economic Area

This Base Prospectus has been prepared on a basis that permits Offers to the Public of Notes. However, any person making or intending to make an offer to the public of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") may only do so if this Base Prospectus has been approved by the competent authority in that Relevant Member State (or, where appropriate, approved in another Relevant Member State and notified to the competent

authority in that Relevant Member State) and published in accordance with the Prospectus Directive, provided that the Issuer has consented to the use of this Base Prospectus in connection with such offer as provided under "*Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)*" below and provided that such person complies with the conditions attached to their consent.

Save as provided above, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any Offer to the Public of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)

In the context of any Offer to the Public of Notes, the Issuer accepts responsibility, in the jurisdictions to which the consent to use the Base Prospectus extends, for the content of this Base Prospectus under Article 6 of the Prospectus Directive in relation to any person (an "**Investor**") who acquires any Notes in an Offer to the Public made by any person to whom the Issuer has given consent to the use of this Base Prospectus (an "**Authorised Offeror**") where that offer is made during the Offer Period specified in the applicable Final Terms and provided that the conditions attached to that consent are complied with by the Authorised Offeror. The consent and conditions attached to it are set out under "*Consent to the use of this Base Prospectus*" and "*Common Conditions to Consent*" below.

None of the Issuer or any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Offer to the Public and none of the Issuer or any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Save as provided below, the Issuer has not authorised the making of any Offer to the Public by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Offer to the Public of Notes. Any Offer to the Public made without the consent of the Issuer is unauthorised and none of the Issuer and the Dealers accepts any responsibility or liability in relation to such Offer to the Public or for the actions of the persons making any such unauthorised offer. If, in the context of an Offer to the Public, an Investor is offered Notes by a person which is not an Authorised Offeror, the Investor should check with such person whether anyone is responsible for this Base Prospectus for the purposes of the Offer to the Public and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

Consent to the use of this Base Prospectus

Subject to the conditions set out below under "*Common Conditions to Consent*":

(a) *Specific Consent*: the Issuer consents to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with an Offer to the Public of Notes during the relevant Offer Period by:

- (i) the relevant Dealer(s) or Manager(s) stated in the applicable Final Terms;
- (ii) any financial intermediary named as an Initial Authorised Offeror in the applicable Final Terms; and
- (iii) any other financial intermediary appointed after the date of the applicable Final Terms and whose name is published on the website of the Issuer (www.cdp.it) and identified as an Authorised Offeror in respect of the relevant Offer to the Public; and

(b) *General Consent*: if (and only if) Part B of the applicable Final Terms specifies "General Consent" as "Applicable", the Issuer hereby offers to grant its consent to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with an Offer to the Public of Notes by any other financial intermediary which satisfies the following conditions:

- (i) it is authorised to make such offers under applicable legislation implementing the Markets in Financial Instruments Directive (Directive 2004/39/EC); and
- (ii) it accepts such offer by publishing on its website the following statement (with the information in square brackets completed) (the "**Acceptance Statement**"):

*"We, [insert legal name of financial intermediary], refer to the offer of [insert title of relevant Notes] (the "**Notes**") described in the Final Terms dated [insert date] (the "**Final Terms**") published by [Cassa depositi e prestiti S.p.A.] (the "**Issuer**"). In consideration of the Issuer offering to grant their consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the offer of the Notes in accordance with the Authorised Offeror Terms and subject to the conditions to such consent, each as specified in the Base Prospectus, we hereby accept such offer. Accordingly, we confirm that we are using the Base Prospectus in connection with the Offer to the Public in accordance with the consent of the Issuer on the Authorised Offeror Terms and subject to the conditions of such consent."*

Any financial intermediary falling within this sub-paragraph (b) who wishes to use this Base Prospectus in connection with an Offer to the Public is required, for the duration of the relevant Offer Period specified in the applicable Final Terms, to publish a duly completed Acceptance Statement on its website.

The consent referred to above relates to Offers to the Public occurring within twelve months from the date of this Base Prospectus.

The "**Authorised Offeror Terms**" are that the relevant financial intermediary:

(A) will, and it agrees, represents, warrants and undertakes for the benefit of the Issuers and the relevant Dealer that it will, at all times in connection with the relevant Offer to the Public:

- (i) act in accordance with, and be solely responsible for complying with, all applicable laws, rules, regulations and guidance of any applicable regulatory bodies (the "**Rules**") from time to time including, without limitation and in each case, Rules relating to both the appropriateness or suitability of any investment in the Notes by any person and disclosure to any potential Investor;
- (ii) immediately inform the Issuer and the relevant Dealer if at any time such financial intermediary becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
- (iii) comply with the restrictions set out under "*Subscription and Sale*" in this Base Prospectus as if the relevant financial intermediary were a Dealer and with any further relevant requirements as may be specified in the applicable Final Terms;
- (iv) ensure that any fee (and any other commissions or benefits of any kind) or rebate received or paid by the relevant financial intermediary in relation to the offer or sale of the Notes does not violate the Rules and, to the extent required by the Rules, is fully and clearly disclosed to Investors or potential Investors;
- (v) hold all licences, consents, approvals and permissions required in connection with solicitation of interest in, or offers or sales of, the Notes under the Rules including, where an offer to the public of Notes is being made in the United Kingdom, authorisation under the FSMA;
- (vi) comply with applicable anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules (including, without limitation, taking appropriate steps, in compliance with such Rules, to establish and document the identity of each potential Investor prior to initial investment in any Notes by the Investor), and will not permit any application for Notes in circumstances where the financial intermediary has any suspicions as to the source of the application monies;
- (vii) retain Investor identification records for at least the minimum period required under applicable Rules, and shall, if so requested, make such records available to the relevant Dealer and the Issuer or directly to the appropriate authorities with jurisdiction over the Issuer and/or the relevant Dealer in order to enable the Issuer and/or the relevant Dealer to comply with anti-money laundering, anti-bribery, anti-corruption and "know your client" Rules applying to the Issuer and the relevant Dealer, as the case may be;

- (viii) ensure that no holder of Notes or potential Investor in Notes shall become an indirect or direct client of the Issuer or the relevant Dealer for the purposes of any applicable Rules from time to time, and to the extent that any client obligations are created by the relevant financial intermediary under any applicable Rules, then such financial intermediary shall perform any such obligations so arising;
- (ix) co-operate with the Issuer and the relevant Dealer in providing relevant information (including, without limitation, documents and records maintained pursuant to paragraph ((vi)) above) and such further assistance as is reasonably requested upon written request from the Issuer or the relevant Dealer in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process. For this purpose, relevant information is information that is available to or can be acquired by the relevant financial intermediary:
 - (a) in connection with any request or investigation by any regulator in relation to the Notes, the Issuer or the relevant Dealer; and/or
 - (b) in connection with any complaints received by the Issuer and/or the relevant Dealer relating to the Issuer and/or the relevant Dealer or another Authorised Offeror including, without limitation, complaints as defined in rules published by any regulator of competent jurisdiction from time to time; and/or
 - (c) which the Issuer or the relevant Dealer may reasonably require from time to time in relation to the Notes and/or as to allow the Issuer or the relevant Dealer fully to comply with its own legal, tax and regulatory requirements,in each case, as soon as is reasonably practicable and, in any event, within any time frame set by any such regulator or regulatory process;
- (x) during the primary distribution period of the Notes: (i) only sell the Notes at the Issue Price specified in the applicable Final Terms (unless otherwise agreed with the Issuer and the relevant Dealer); (ii) only sell the Notes for settlement on the Issue Date specified in the relevant Final Terms; (iii) not appoint any sub-distributors (unless otherwise agreed with the Issuer and the relevant Dealer); (iv) not pay any fee or remuneration or commissions or benefits to any third parties in relation to the offering or sale of the Notes (unless otherwise agreed with the relevant Dealer); and (v) comply with such other rules of conduct as may be reasonably required and specified by the Issuer and the relevant Dealer;

- (xi) either (i) obtain from each potential Investor an executed application for the Notes, or (ii) keep a record of all requests the relevant financial intermediary (x) makes for its discretionary management clients, (y) receives from its advisory clients and (z) receives from its execution-only clients, in each case prior to making any order for the Notes on their behalf, and in each case maintain the same on its files for so long as is required by any applicable Rules;
- (xii) immediately inform the Issuer and the relevant Dealer if at any time it becomes aware or suspects that it is or may be in violation of any Rules and take all appropriate steps to remedy such violation and comply with such Rules in all respects;
- (xiii) ensure that it does not, directly or indirectly, cause the Issuer, or the relevant Dealer to breach any Rule or subject the Issuer, or the relevant Dealer to any requirement to obtain or make any filing, authorisation or consent in any jurisdiction;
- (xiv) comply with the conditions to the consent referred to under "*Common conditions to consent*" below and any further requirements relevant to the Offer to the Public as specified in the applicable Final Terms;
- (xv) make available to each potential Investor in the Notes the Base Prospectus (as supplemented as at the relevant time, if applicable), the applicable Final Terms and any applicable information booklet provided by the Issuer for such purpose, and not convey or publish any information that is not contained in or entirely consistent with the Base Prospectus; and
- (xvi) if it conveys or publishes any communication (other than the Base Prospectus or any other materials provided to such financial intermediary by or on behalf of the Issuer for the purposes of the relevant Offer to the Public) in connection with the relevant Offer to the Public, it will ensure that such communication (A) is fair, clear and not misleading and complies with the Rules, (B) states that such financial intermediary has provided such communication independently of the Issuer, that such financial intermediary is solely responsible for such communication and that none of the Issuer and the relevant Dealer accepts any responsibility for such communication and (C) does not, without the prior written consent of the Issuer or the relevant Dealer (as applicable), use the legal or publicity names of the Issuer, or the relevant Dealer or any other name, brand or logo registered by an entity within their respective groups or any material over which any such entity retains a proprietary interest, except to describe the Issuer as issuer of the relevant Notes on the basis set out in the Base Prospectus;

(B) agrees and undertakes to each of the Issuer and the relevant Dealer that if any of its respective directors, officers, employees, agents, affiliates and controlling persons (each a "**Relevant Party**") incurs any losses, liabilities, costs, claims, charges, expenses, actions or demands (including reasonable costs of investigation and any defence raised thereto and counsel's fees and disbursements associated with any such investigation or defence) (a "**Loss**") arising out of or in relation to, or in connection with, any breach of any of the foregoing agreements, representations, warranties or undertakings by the relevant financial intermediary, including (without limitation) any unauthorised action by the relevant financial intermediary or failure by it to observe any of the above restrictions or requirements or the making by it of any unauthorised representation or the giving or use by it of any information which has not been authorised for such purposes by the Issuer or the relevant Dealer, the relevant financial intermediary shall pay to the Issuer or the relevant Dealer, as the case may be, an amount equal to the Loss. None of the Issuer nor any Dealer shall have any duty or obligation, whether as fiduciary or trustee for any Relevant Party or otherwise, to recover any such payment or to account to any other person for any amounts paid to it under this provision; and

(C) agrees and accepts that:

- (i) the contract between the Issuer and the relevant financial intermediary formed upon acceptance by the relevant financial intermediary of the Issuer's offer to use the Base Prospectus with its consent in connection with the relevant Offer to the Public (the "**Authorised Offeror Contract**"), and any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract, shall be governed by, and construed in accordance with, Italian law;
- (ii) subject to (iv) below, the Italian courts have non-exclusive jurisdiction to settle any dispute arising out of or in connection with the Authorised Offeror Contract (including any dispute relating to any non-contractual obligations arising out of or in connection with the Authorised Offeror Contract) (a "**Dispute**") and the Issuer and the relevant financial intermediary submit to the non-exclusive jurisdiction of court of Rome;
- (iii) for the purposes of (C)(ii) and (iv), the Issuer and the financial intermediary waive any objection to the Italian courts on the grounds that they are an inconvenient or inappropriate forum to settle any dispute;
- (iv) this paragraph (iv) is for the benefit of the Issuer and each relevant Dealer. To the extent allowed by law, the Issuer and each relevant Dealer may, in respect of any Dispute or Disputes, take (i) proceedings in any other court with jurisdiction; and (ii) concurrent proceedings in any number of jurisdictions.

Any financial intermediary who is an Authorised Offeror falling within (b) above who meets all of the conditions set out in (b) and the other conditions stated in "Common Conditions to Consent" below and who wishes to use this Base Prospectus in connection with a Offer to the Public is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement (duly completed) specified at paragraph (b)(ii) above.

Common conditions to consent

The conditions to the consent of the Issuer to the use of this Base Prospectus are (in addition to the conditions described in either sub-paragraph (a) or sub-paragraph (b) under "Consent to the use of this Base Prospectus" above) that such consent:

- (a) is only valid in respect of the relevant Tranche of Notes;
- (b) is only valid during the Offer Period specified in the applicable Final Terms; and
- (c) only extends to the use of this Base Prospectus to make Offers to the Public of the relevant Tranche of Notes in Austria, Belgium, France, Germany, Portugal, Spain, Sweden, the Netherlands and the United Kingdom, as specified in the applicable Final Terms.

The consent referred to above only relates to Offer Periods (if any) occurring within 12 months from the date of this Base Prospectus.

ARRANGEMENTS BETWEEN INVESTORS AND AUTHORISED OFFERORS

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN AN OFFER TO THE PUBLIC FROM AN AUTHORISED OFFEROR OTHER THAN THE ISSUER WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS, EXPENSES AND SETTLEMENT ARRANGEMENTS. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS (OTHER THAN DEALERS) IN CONNECTION WITH THE OFFER TO THE PUBLIC OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE INVESTOR MUST LOOK TO THE RELEVANT AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER FOR THE PROVISION OF SUCH INFORMATION AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NONE OF THE ISSUER AND THE DEALERS (EXCEPT WHERE THE DEALER IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

IN THE EVENT OF AN OFFER BEING MADE BY A FINANCIAL INTERMEDIARY, SUCH FINANCIAL INTERMEDIARY WILL PROVIDE INFORMATION TO INVESTORS ON THE TERMS AND CONDITIONS OF THE OFFER AT THE TIME THE OFFER IS MADE.

Offers to the Public: Issue Price and Offer Price

Notes to be offered pursuant to a Offer to the Public will be issued by the Issuer at the Issue Price specified in the applicable Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Dealer(s) at the time of the relevant Offer to the Public and will depend, amongst other things, on the interest rate applicable to the Notes and prevailing market conditions at that time. The offer price of such Notes will be the Issue Price or such other price as may be agreed between an Investor and the Authorised Offeror making the offer of the Notes to such Investor. The Issuer will not be party to arrangements between an Investor and an Authorised Offeror, and the Investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Notes to such Investor.

Save as provided above, neither the Issuer nor any Dealer have authorised, nor do they authorise, the making of any Offer to the Public of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

GENERAL DESCRIPTION OF THE PROGRAMME

This section must be read as an introduction to this Base Prospectus and any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole, including the documents incorporated by reference.

Words and expressions defined in the "Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

An overview of the terms and conditions of the Programme and the Notes appears below. The applicable terms of any Notes will be agreed between the Issuer and the relevant Dealer prior to the issue of the Notes. The following general description does not purport to be complete and is taken from, and is qualified in its entirety by, the remainder of this Base Prospectus and, in relation to the terms and conditions of any particular Tranche of Notes, the applicable Final Terms.

This general description constitutes a general description of the Programme for the purposes of Article 22.5(3) of Commission Regulation (EC) No 809/2004 implementing the Prospectus Directive.

The Base Prospectus and any supplement will only be valid for listing Notes on the Luxembourg Stock Exchange during the period of 12 months from the date of this Base Prospectus in an aggregate nominal amount which, when added to the aggregate nominal amount then outstanding of all Notes previously or simultaneously issued under the Programme, does not exceed EUR 10,000,000,000 or its equivalent in other currencies. For the purpose of calculating the euro equivalent of the aggregate nominal amount of Notes issued under the Programme from time to time:

- (a) the euro equivalent of Notes denominated in another currency of denomination (as specified in the applicable Final Terms in relation to the relevant Notes) shall be determined either as of the date on which agreement is reached for the issue of Notes or on the preceding day on which commercial banks and foreign exchange markets are open for business in Milan, in each case on the basis of the spot rate for the sale of the euro against the purchase of such currency of denomination in the Milan foreign exchange market quoted by any leading international bank selected by the Issuer on the relevant day of calculation; and
- (b) the euro equivalent of Zero Coupon Notes (as specified in the applicable Final Terms in relation to the relevant Notes) and other Notes issued at a discount or a premium shall be calculated in the manner specified above by reference to the net proceeds received by the Issuer for the relevant issue.

- 5.4 *Calculation of interest amount:* The amount of interest payable in respect of each Note for any period for which a Fixed Coupon Amount is not specified shall be calculated by the Calculation Agent by applying the Rate of Interest to the principal amount of such Note (or, if they are Partly Paid Notes, the aggregate amount paid up) multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards). For this purpose a "**sub-unit**" means, in the case of any currency other than Euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of Euro, means one cent.

6.3 *Screen Rate Determination (other than CMS Linked Interest Notes)*: If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be determined by the Calculation Agent on the following basis:

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or, as the case may be, the arithmetic mean last

determined in relation to the Notes in respect of the immediately preceding Interest Period for which such rate or arithmetic mean was determined.

6.4 *Floating Rate Notes which are CMS Linked Interest Notes:* Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Period will be:

(a) where "CMS Reference Rate" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{CMS Rate} + \text{Margin}$$

(b) where "Leveraged CMS Reference Rate" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{Leverage} \times \text{CMS Rate}$$

(c) where "Leveraged CMS Reference Rate 2" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{Leverage} \times \text{CMS Rate} + \text{Margin}$$

(d) where "Steepner CMS Reference Rate" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

Either:

(i) where "Steepner CMS Reference Rate: Unleveraged" is specified in the applicable Final Terms:

$$\text{CMS Rate 1} - \text{CMS Rate 2}$$

or

(ii) where "Steepner CMS Reference Rate: Leveraged" is specified in the applicable Final Terms:

$$\text{Leverage} \times [(\text{Min}(\text{CMS Rate 1}; \text{Cap} - \text{CMS Rate 2})) + \text{Margin}]$$

(e) where "Call Spread CMS Reference Rate" is specified as the Reference Rate in the applicable Final Terms, determined by the Calculation Agent by reference to the following formula:

$$\text{Leverage} \times \text{Min} [\text{Max}(\text{CMS Rate} + \text{Margin}; \text{Floor}); \text{Cap}]$$

If the Relevant Screen Page is not available, the Calculation Agent shall request each of the CMS Reference Banks to provide the Calculation Agent with its quotation for the Relevant Swap Rate at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the Interest Determination Date in question. If at least three of the CMS Reference Banks provide the Calculation Agent with such quotation, the CMS Rate for such Interest Period shall be the arithmetic mean of such quotations, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest).

If on any Interest Determination Date less than three or none of the CMS Reference Banks provides the Calculation Agent with such quotations as provided in the preceding paragraph, the CMS Rate shall be determined by the Calculation Agent in good faith on such commercial basis as considered appropriate by the Calculation Agent in its absolute discretion, in accordance with standard market practice.

6.5 *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "**ISDA Rate**" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
- (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
- (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) or on the Euro-zone inter-bank offered rate (EURIBOR) for a currency, the first day of that Interest Period or (B) in any other case, as specified in the relevant Final Terms.

6.6 *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

6.7 *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the Interest Amount payable in respect of each Note for such

Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount of such Note (or, if it is a Partly Paid Note, the aggregate amount paid up) during such Interest Period and multiplying the product by the relevant Day Count Fraction and rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit rounded upwards). For this purpose a "**sub-unit**" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent. Where the Specified Denomination of a Floating Rate Note is the multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amounts (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination without any further rounding.

- 6.8 *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is, as the case may be, to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- 6.9 *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified in accordance with Condition 18 (*Notices*) to the Paying Agent, Monte Titoli, the Issuer, the Representative of the Noteholders, the Luxembourg Stock Exchange or each listing authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders in accordance with Condition 18 (*Notices*). The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period.
- 6.10 *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer, the other Paying Agent(s), the Representative of the Noteholders and the Noteholders (subject as aforesaid) and no liability to any such person will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

19. **Currency Indemnity**

- 19.1 If any sum due from the Issuer in respect of the Notes or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Principal Paying Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

(ii) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the Specified Currency ceases to be a sub-division of the Euro, payments of interest in respect of periods commencing before the Redenomination Date) will be made solely in Euro by credit or transfer to a Euro account (or any other account to which Euro may be credited or transferred) maintained by the payee with, a bank in the principal financial centre of any Member State of the European Communities.

INTRODUCTION

Cassa depositi e prestiti società per azioni ("**CDP**" or the "**Issuer**") is a joint stock company (*società per azioni*) incorporated on 12 December 2003 under the laws of the Republic of Italy. The registered office of CDP and its principal place of business is Via Goito 4, Rome, Italy, telephone number +39 06 42211. CDP is enrolled in the Register of Companies of Rome with registration number and fiscal code 80199230584.

CDP's shares are not listed on any stock exchange. The long-term unsecured, unsubordinated and unguaranteed debt obligations of CDP are rated BBB+ by Fitch Ratings, Baa2 by Moody's and BBB- by S&P. A long term, unsecured unsubordinated and unguaranteed debt securities rating of (i) 'BBB+' by Fitch Ratings indicates that expectations of default risk are currently low and that the capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity; (ii) 'Baa' by Moody's indicates that the issuer's debt securities are subject to moderate credit risk - they are considered medium grade and as such may possess certain speculative characteristics. The modifier "2" indicates a mid-range ranking; and (iii) 'BBB-' by S&P is the lowest rating of the 'BBB' category. An obligor rated 'BBB' is defined as having adequate capacity to meet financial commitments, but more subject to adverse economic conditions. Each of Fitch Ratings, Moody's and S&P is established in the EEA and registered under the CRA Regulation, and is included in the list of registered credit rating agencies published on the website of the European Securities and Markets Authority at <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>.

Whether or not each credit rating applied for in relation to the relevant Series of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the Final Terms. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation (or is endorsed and published or distributed by subscription by such a credit rating agency in accordance with the Regulation) unless the rating is provided by a credit rating agency operating in the European Union before 7 June 2010 which has submitted an application for registration in accordance with the CRA Regulation and such registration is not refused.

HISTORY

CDP is the company resulting from the transformation into joint stock companies of the Cassa depositi e prestiti – a national public body (*amministrazione dello Stato*), pursuant to Law Decree 269.

Law No. 1270 of 17 May 1863 originally established Cassa depositi e prestiti through the merger of several financial institutions into the Public Debt General Department (*Direzione Generale del Debito Pubblico*) and, as such, for approximately one century, Cassa depositi e

prestiti was a General Department of the Ministry of Treasury of the Republic of Italy, however with financial and accounting autonomy from the Italian state. Pursuant to Law No. 197 of 13 May 1983, the General Department was abolished and Cassa depositi e prestiti was set up as an independent administration (*amministrazione autonoma*). Legislative Decree No. 284 of 30 July 1999 reformed Cassa depositi e prestiti and classified it as a national public body (*amministrazione dello Stato*) with legal status and regulatory, organisational, economic and accounting autonomy.

Pursuant to Article 5, paragraph 1, of Law Decree 269, Cassa depositi e prestiti was transformed and incorporated, as of 12 December 2003, as a joint stock company under the name of "*Cassa depositi e prestiti società per azioni*" and all assets, liabilities, rights and obligations owned by or owed to Cassa depositi e prestiti prior to its transformation into a joint stock company were transferred to CDP, with the exception of certain assets and liabilities which were transferred to the Ministry of Economy and Finance (the "**MEF**"), in accordance with the provisions of Article 5.

The duration of CDP, pursuant to article 4 of CDP's by-laws, is set until 31 December 2100, unless otherwise extended by shareholders' resolution.

In 2015, CDP was appointed as a National Promotional Bank (*Istituto Nazionale di Promozione*) by the Italian government, pursuant to article 1, paragraph 826, of the 2016 Stability Law (Law no. 208 of 28 December 2015) and applicable EU legislation.

In order to pursue the corporate purpose indicated in letters (A1), (A2), (C), (F) and (G) of paragraph 1 above, CDP uses funds redeemable by way of passbook savings accounts and postal savings bonds, guaranteed by the Italian state and placed by Poste Italiane S.p.A. ("**Poste Italiane**") or its subsidiaries, and funds deriving from the issue of securities, the entering into loans and other financial transactions, which may be guaranteed by the State. All interest and other income payable in respect of the financial instruments issued by CDP are subject to the provisions of Legislative Decree No. 239, regardless of their terms and maturity.

CDP ACTIVITIES UNDER THE SEPARATE ACCOUNT SYSTEM

A. The Separate Account System

Pursuant to paragraph 8 of Article 5 and to article 6 of CDP's by-laws, CDP has established a separate account system in which the activities under letters (A1), (A2), (C), (D) where applicable, (E), where applicable, (F), (G) and (H) of article 3 of CDP's by-laws, where applicable, as well as any other instrumental, connected or ancillary activity, carried out by using the Article 5, Paragraph 7, Letter (a) Funds, are to be registered and managed (the "**Separate Account System**"). The Separate Account System is established for accounting

and organisation purposes only, so that from a legal point of view CDP remains a single legal entity and any creditors of CDP may recover their claims by attaching them to all of CDP's assets (except for those segregated in favour of certain creditors only pursuant to paragraph 18 of Article 5).

The Separate Account System is managed in line with applicable transparency and economic safeguard criteria. Article 6 of CDP's by-laws has been amended in order to specify that, for the transactions referred to in letter (A2) of paragraph 1 of article 3 of CDP's by-laws, the economic and financial sustainability of each project shall be assessed.

Such organisational and accounting separation aims at highlighting the economic balance of the Separate Account System and at enabling the MEF to exercise its powers to issue guidelines thereon and ensure the compliance with EU legislation on State Aid, competition and transparency.

Pursuant to paragraphs 9 and 11 of Article 5, the MEF has the power to determine the general policies of the Separate Account System and to issue decrees on, *inter alia*, the determination of the criteria for the definition of general economic terms of the demand of passbook savings accounts, postal savings bonds, other securities and other financial transactions guaranteed by the Republic of Italy, as well as those for the granting of loans by means of the Article 5, Paragraph 7, Letter (a) Funds and for the management of the shareholdings and participations held by CDP.

The implementation by CDP of the decrees or guidelines issued by the MEF in connection with the Separate Account System is ensured by the attendance of Additional Directors (as defined below) at the meetings of the board of directors of CDP (the "**Board of Directors**") convened to resolve on matters relating to the Separate Account System (for details on the Additional Directors see paragraph "*Board of Directors, Managing Director and General Manager*" below). To pass a valid resolution involving the management of the Separate Account System, at least two Additional Directors are required to be present at the board meeting and vote for its adoption.

In addition, the Supervisory Board (as defined below), composed of four members of the Italian Senate (*Senato della Repubblica*), four members of the Italian Chamber of Deputies (*Camera dei Deputati*), three judges of the Council of State (*Consiglio di Stato*), and one judge of the Court of Accounts (*Corte dei Conti*), supervises the Separate Account System of CDP pursuant to paragraph 9 of the Article 5 and Royal Decree No. 453 of 2 January 1913.

CDP and Poste Italiane entered into a new agreement (the "**Poste Italiane Distribution Agreement**") for the distribution of postal savings instruments, on 4 December 2014 for a five-year term ending on 31 December 2018. The agreement consolidates the relationships between CDP and Poste Italiane, strengthening their partnership at the service of Italian investors and to support the Country's economic growth.

Pursuant to such agreement, the remuneration of Poste Italiane, which is the only distributor of postal savings instruments issued by CDP, is based on, *inter alia*, the total volume of managed instruments, the net volumes of postal savings instruments fund-raising and the constant improvement of the quality of service of postal savings instruments in each year. In particular, Poste Italiane has undertaken to make new investments in technology, communication, promotion and training, in order to innovate and expand the services associated with postal savings bonds and passbook savings accounts.

Postal savings – that allow CDP to pursue its institutional mission - is the main source of funding in the Separate Account System for CDP: as at 31 December 2015, postal savings represented 80 per cent of CDP's total funding in the Separate Account System (Euro 252 billion of Euro 316 billion).

In addition, further to the occurrence of certain exceptional circumstances and as envisaged in the Poste Italiane Distribution Agreement, on 29 September 2015, CDP and Poste Italiane signed an executive protocol (*Protocollo Operativo*), amended on 6 October 2015, setting out an action plan aimed at rectifying such circumstances and certain commercial and promotional activities to be carried out by Poste Italiane, including the subscription of two bonds issued by CDP, benefiting from a State guarantee (please see paragraph "*Stand alone issue*" below).

Any and all transactions and business activities entered into by CDP in connection with the funding and the lending under the Separate Account System are exempt from registration tax, stamp duty, mortgage tax and other indirect taxes.

B. Lending

B.1 Financing of Public Entities

CDP carries out the traditional activity of financing Public Entities using the Article 5, Paragraph 7, Letter (a) Funds.

By way of Ministerial Decree of 6 October 2004 (*Determinazioni ai sensi dell'art. 5, comma 11, lettere a), b) e c), del D.L. 30 settembre 2003, n. 269 convertito con modificazioni dalla legge 24 novembre 2003, n. 326 ed esercizio del potere di indirizzo della gestione separata della Cassa depositi e prestiti, società per azioni, a norma dell'art. 5, comma 9, del citato decreto-legge*) ("**MD 2004**"), the MEF has set forth, *inter alia*, the criteria applying to CDP's financing of Public Entities, pursuant to which:

- (i) such financing activity carried out by CDP constitutes a service of general economic interest;
- (ii) the relevant loans shall be granted by CDP as specific purpose loans (*prestiti di scopo*), which may be utilised by Public Entities in connection with the carrying out of public interest investments or in connection with other purposes for which the relevant borrowers may incur indebtedness;

- (iii) the process carried out by CDP for the granting of specific purpose loans is aimed at ascertaining whether the relevant borrower fulfils the requirements set forth by applicable legislation (including, inter alia, compliance with the debt ratios provided from time to time by law);
- (iv) in carrying out such financing activity, CDP must ensure that each public borrower is granted, amongst its peers, free access, as well as equal and non-discriminatory contractual treatment, therefore the general terms and conditions applicable to such loans are notified by CDP through regulations (*circolari*) published in the Official Gazette and made available on the website of CDP;
- (v) such loans may be granted on a fixed or floating rate basis and the relevant interest rate is predetermined (currently on a weekly basis) and disclosed by way of publication on the website of CDP and in at least one daily newspaper;
- (vi) the financial equivalent of the interest rates applicable to the above-mentioned specific purpose loans shall not exceed, upon calculation at the relevant computation date, the interest rate referred to in article 45, paragraph 32, of Law No. 448 of 23 December 1998 (*Misure di finanza pubblica per la stabilizzazione e lo sviluppo*) as subsequently amended, in relation to loans with repayment obligations on the part of the Republic of Italy (i.e. the interest rate determined from time to time by the MEF on the basis of the market conditions by way of specific notices to be published in the Official Gazette);
- (vii) such loans shall be granted by way of a written contract (which may fail to be entered into as a notarised deed (*atto in forma pubblica*), a copy of which shall be provided to the borrower together with the general terms and conditions applicable thereto; and
- (viii) in compliance with the provisions of paragraph 24 of Article 5, any and all acts, deeds, agreements, assignments, performances and/or other formalities relating to specific purpose loans, the relevant performance, amendments or modifications and termination shall be exempt from registration tax (*imposta di registro*), stamp duty (*imposta di bollo*) mortgage and cadastral taxes (*imposte ipotecarie e catastali*) and from any other indirect tax or other charge, levy, imposts or duties;
- (ix) CDP may grant loans to Public Entities having characteristics other than those referred to in points (ii) to (vii) above, provided that such other loans are granted to the Public Entities and are destined to be used in connection with measures satisfying a public interest. The characteristics of such loans are set forth by CDP taking into account their specific purpose, the features of the investment to be made by the relevant borrower and the characteristics of the borrower.

As at 31 December 2015, loans to customers and banks totalled Euro 79,389 million, including adjustments for IAS/IFRS purposes, a decrease from the end of 2014 (Euro 82,093

million). The decline can be attributed to the amount of debt repaid during the period, which more than offset the start of repayment periods for loans granted and the disbursements of loans without a pre-repayment grace period. Including commitments to disburse funds, and excluding IAS/IFRS adjustments, the total stock came to Euro 88,838 million, a 1.7 per cent decrease from 31 December 2014 (Euro 90,337 million). The change can be attributed to the fact that the volume of new lending was lower than principal repayments falling due at 31 December 2014.

New lending in 2015 included new loans and securities granted for an amount equal to Euro 3,411 million and advances on general government trade payables totaling Euro 838 million for a total amount of new lending of Euro 4,249 million. More specifically, the decline in the volume at the end of 2015 is mainly due to a loan of Euro 4.813 billion granted in 2014 to the *Gestione Commissariale del Comune di Roma* with repayment charged to central governments and to the decrease of advances on general government trade payables (from Euro 2.798 billion as at 31 December 2014 to Euro 0.8 billion as at 31 December 2015). CDP's market share was to 48.2 per cent. as at 31 December 2015, compared with 48 per cent. at the end of 2014.

The credit quality of the Public Entities area loan portfolio showed virtually no problem positions and was essentially unchanged compared with 2014.

B.2 Financing of transactions promoted by Public Entities

Pursuant to Article 3, letter (A2) of CDP's by-laws, funds under Article 5, Paragraph 7, Letter (a) can be used by CDP not only to finance Public Entities but also to finance, *inter alia*, transactions of public interest promoted by such Public Entities in accordance with the criteria established by the MEF decree of 12 March 2009, and upon satisfactory assessment of the economic and financial feasibility of each such transaction.

The MEF decree of 12 March 2009 provides the following:

- (a) the criteria for identifying the transactions promoted by the Public Entities which may be financed under the amended letter (a) of paragraph 7 of Article 5, and which include the following:
 - (i) transactions which benefit from long-term public or European contributions or other forms of public incentives for the realisation of investments or supplies of national interest;
 - (ii) transactions to be carried out in the context of a public concession;
 - (iii) transactions carried out in execution of agreements between the Public Entities and (x) third party countries or (y) European Union institutions or Member States;
 - (iv) transactions carried out within the framework of a public-private partnership;

- (v) transactions which form part of the plans or other programming instruments of the Public Entities;
 - (vi) transactions which are co-financed by the European Investment Bank;
 - (vii) transactions aimed at fulfilling public entities' institutional role;
- (b) that the beneficiaries of the financing under letter (a) of paragraph 7 of Article 5 may be public or private entities, with the exclusion of natural persons, and
- (c) that CDP shall provide funding for the above mentioned transactions under letter (a) of paragraph 7 of Article 5 on the basis of the creditworthiness of the prospective borrower and of the economic and financial sustainability of the relevant transaction.

CDP's by-laws, as amended in order to reflect the cited legislation, provides that the financing of transactions promoted by Public Entities using Funds under Article 5, Paragraph 7, Letter (a) needs to comply with the following requirements: the financing (i) may be conducted either directly by CDP or through the banking system, provided that the financial transactions conducted directly by CDP must involve an amount equal to or greater than Euro 25,000,000.00 (twenty five million), (ii) may be carried out in favour of public or private entities having legal personality (*soggettività giuridica*), with the exclusion of natural persons, (iii) must fall under the Separate Account System which is inspired to transparency and economic equilibrium criteria and (iv) requires the assessment of the economic and financial sustainability of each project.

As a general principle, funds provided by CDP through these types of transactions should not exceed 50 per cent. of the relevant investment financing.

As at 31 December 2015, CDP's total stock of loans came to Euro 79.4 billion. As at the same date, loans, including disbursement commitments and guarantees, totalled Euro 82.1 billion.

B.3 Financing in support of enterprises and other entities

Pursuant to the recent legislation mentioned above, the Article 5, Paragraph 7, Letter (a) Funds are also used by CDP in other supporting initiatives in favour of enterprises.

Transactions in favour of small and medium-sized enterprises

As mentioned above, pursuant to article 3, paragraph 4-*bis* of Law Decree 5, as integrated by the Budget Law 2010, among the transactions listed in the amendment to letter (a) of paragraph 7 of Article 5 CDP may also carry out transactions in favour of small and medium-sized enterprises ("**SMEs**") for the purpose of supporting the economy.

Pursuant to such legislation and CDP's by-laws, transactions in favour of SMEs may be conducted through the banking system or through the subscription of participations in

investment funds managed by asset management companies authorised to carry out collective portfolio management activities pursuant to article 33 of Legislative Decree No. 58 of 24 February 1998 whose corporate purpose fulfils one or more of the institutional objectives of CDP.

In the context of transactions conducted through the banking system, CDP assumes the risk of insolvency of the banks through which the funding is granted to the SMEs. In 2009, an amount of up to Euro 8 billion (the "**Plafond PMI**") has been allocated to funds to the banking system for the granting of loans in favour of SMEs, for investments and the increase of working capital. In July 2012, CDP completed the distribution of the entire amount of Euro 8 billion.

In 2012, given the continuing difficulties of access to borrowing for SMEs, CDP deemed it necessary to strengthen its commitment to support the economy, by making available a further amount up to Euro 10 billion (the "**New Plafond PMI**"), Euro 8 billion of which have the same purpose as the Plafond PMI (the "**New Plafond PMI – Investments**"), but, with respect to the first *plafond*, the exposure of CDP towards the banks is guaranteed by the granting of security. CDP has also allocated Euro 2 billion of the New Plafond PMI in order to contribute towards solving the issues concerning the delays in payment by the public administration (the "**New Plafond PMI - Claims vs. PA**"). Through the resources provided by CDP, the banking system will carry out transactions in favour of SMEs having one or more claims against the public administration, arising out of contracts for works, services and supplies, that have been certified as liquid and enforceable.

In August 2014, in consideration of the Italian government's initiatives aimed at reducing stock of claims against the public administration (e.g. Law Decree No. 35 of 2013), CDP closed the operation of the New Plafond PMI - Claims vs. PA and allocated its resources to the tranche of the "**Piattaforma Imprese**" dedicated to SMEs (as further described below).

With regard to CDP's intervention in favour of SMEs through the subscription of holdings in investment funds, CDP holds an interest in the Italian Investment Fund for the Small and Medium Sized Enterprises (*Fondo Italiano di Investimento per le PMI*). The promotion and launch of such fund has been planned and sponsored by the MEF with the support of the Confederation of Italian Industry (*Confindustria*), the Italian Banking Association (ABI), CDP and the main Italian banking groups.

Pursuant to article 2 of Law Decree No. 69 of 21 June 2013 ("**Law Decree No. 69**"), an amount of up to Euro 2.5 billion of the Article 5, Paragraph 7, Letter (a) Funds may be used for providing funds to the financial system for the granting of loans in favour of SMEs, to be allocated to investments in new machinery, plants and equipment (the "**Plafond Beni Strumentali**"). The Ministry of Economic Development will directly grant a subsidy to those SMEs that are granted such loans, in order to reduce borrowing costs. As well as in the New Plafond PMI, the exposure of CDP towards the banks is guaranteed by the granting of security. Considering the great success of the measure, the budget law for 2015 (Law No. 190

of 23 December 2014) authorized CDP to double the resources of the Plafond Beni Strumentali; consequently, in January 2015, CDP increased its resources to an amount of up to Euro 5 billion.

Article 8 of Law Decree No. 3 of 24 January 2015, converted into law with amendments by Law No. 33 of 24 March 2015 ("**Law Decree 3/2015**") amended Law Decree No. 69, by providing, among other things, that government grants may be provided to SMEs that have obtained a loan under the Law Decree No. 69 that need not necessarily be drawn on the so-called reserves of the Separate Account of the Cassa depositi e prestiti. In order to implement this provision, on 17 March 2016, the Ministry of Economic Development, the Italian Banking Association and CDP entered into a further addendum to the agreement dedicated to the Plafond Beni Strumentali.

The budget law for 2014 (Law No. 147 of 27 December 2013) extended the perimeter of operations for the purpose of supporting the economy, by amending the article 3, paragraph 4-bis of Law Decree No. 5 of 10 February 2009, by introducing the possibility of providing funds, through banking intermediaries, for the granting of loans also in favour of large enterprises.

Pursuant to such provisions and to CDP's by-laws, in January 2014 CDP launched several initiatives that, in continuity with the New Plafond PMI, will be the subject of a new agreement with the Italian Banking Association in August 2015, dedicated to the *Piattaforma Imprese*.

First of all, in order to broaden the base of the potential beneficiaries, CDP adopted - both for the New Plafond PMI and the *Piattaforma Imprese* - a new definition of SME (from the EU-wide definition to the European Investment Bank definition, i.e. enterprises with less than 250 employees, regardless of the economic data).

Furthermore, in consideration of the imminent finalisation of the distribution of the entire amount of Euro 8 billion of the New Plafond PMI - Investments (that occurred in April 2015) - CDP enclosed all products (activated in accordance with Article 3, paragraph 4-bis of Law Decree No. 5 of 2009) dedicated to promoting access to credit for enterprises through the intermediation of the banking system in the *Piattaforma Imprese*. The *Piattaforma Imprese*, of an amount of up to Euro 5 billion, is composed of: (i) a fund, dedicated to the same purpose of the previous Plafond PMI, for an amount of Euro 2 billion (coming from the resources of the New Plafond PMI - Claims vs. PA); (ii) a new fund, dedicated to "mid-cap" enterprises (i.e. those with up to 3,000 employees), in an amount of Euro 2 billion for the granting of loans for investments and the increase of working capital; (iii) a new fund dedicated to SMEs networks, for an amount of up to Euro 500 million, aimed at supporting SMEs' consolidation and scale growth; (iv) a new fund, originally dedicated only to post-financing of letters of credit, for an amount of up to Euro 500 million. With reference to the fund referenced under (iv) above, in February 2015 CDP extended its purpose to all types of export financing of Italian enterprises and increased its resources to an amount of up to Euro

1 billion in order to enhance the supply of CDP in support of export and internationalisation of the enterprises.

As well as in the New Plafond PMI, the exposure of CDP towards the banks in the Piattaforma Imprese is guaranteed by the granting of security. Furthermore, for the tranche dedicated to export, banks may constitute a pledge on Italian government bonds.

On the basis of levels of application of the *Piattaforma Imprese*, and in order to increase its potential and efficiency, in March 2016 the Board of Directors resolved to:

- (a) increase of the maximum overall amount of the *Piattaforma Imprese* (bringing it to Euro 10,000 million), through the increase of Plafond PMI (i.e. medium/long-term funding to the Italian banking system dedicated to the financing of investments and working capital to SMEs i.e. enterprises with a workforce up to 249 employees) and Plafond MID (i.e. medium/long-term funding to the Italian banking system dedicated to the financing of investments and working capital to so-called Mid Caps i.e. enterprises with a workforce from 250 to 3,000 employees); in particular, the amount of Plafond PMI has been increased to Euro 6 billion (of which approximately Euro 984 million resulting from the transfer to *Plafond PMI* of the remaining amount available under the funding provided by CDP for operations aimed at supporting internationalisation and export credit), and the amount of the *Plafond MID* has been increased to Euro 3.5 billion;
- (b) introduction in the *Plafond PMI*, *Plafond MID* and *Plafond Reti PMI* (i.e. medium/long-term funding to the Italian banking system dedicated to the financing of investments and working capital for those SMEs that subscribe a networking contract with other enterprises, aimed at supporting their growth process) of further maturity or duration (12 years) - beyond the maximum duration ordinarily offered (10 years) - providing, in order to encourage extending the duration of term loans, that the minimum duration of the loans in favour of enterprises by the banks with such funding is fixed at 10 years;
- (c) redefinition of the scope of activity of the *Plafond Reti PMI*, through the broadening of its capacity to finance; in particular, the financing of other forms of business combinations and also of companies such as Mid Caps.

Transactions in order to support export credit and internationalisation (internazionalizzazione)

As mentioned above, article 8 of Law Decree 78 originally authorised the use of funding sources within the Separate Account, including the use of postal savings, for operations aimed at supporting internationalisation and export credit, provided that the intervention by CDP is supported by guarantee or insurance policies issued by SACE. Article 8 has been implemented through a decree issued by the Ministry of Economy and Finance on 22 January 2010. The related guidelines were defined by an agreement entered into between CDP, ABI

SACE and SIMEST, (*Convenzione Export Banca*), amended from time to time, whose validity was extended to 30 October 2015.

Subsequently, article 1, paragraph 44, of the Law No. 147 of 27 December 2013 (the so-called "**Stability Law 2014**") established, through the amendment of article 8 of Law Decree 78, that the intervention of CDP in the internationalisation and export were not limited to transactions guaranteed or insured by SACE but, more generally, by another insurance institution whose obligations are guaranteed by a State.

Consequently, on 23 December 2014, the Minister of Economy and Finance issued a new decree in respect of the Stability Law 2014, published in the Official Gazette of the Republic of Italy n. 35 of 12 February 2015, implementing the amendments introduced by the Stability Law 2014, pursuant to which CDP is authorized to: (i) provide, at market conditions, the banks with the necessary funding to grant loans in connection with transactions for the internationalisation of enterprises and exportation, provided that such transactions are insured or guaranteed by SACE or other export credit agencies, from national development banks or other financial institutions established pursuant to international agreements; and (ii) directly finance, at market conditions, transactions to support the internationalisation of enterprises and exportation, provided that such transactions are guaranteed or insured by SACE or by any other export credit agencies, national development banks or other financial institutions established pursuant to international agreements, in the case of financing transactions for amounts exceeding Euro 25 million. Such direct lending is provided up to 50 per cent. of total funding in the event of co-financing or for a higher percentage should the particular temporal characteristics or dimensions of the financing be not compatible with the intervention of the banking system.

Subject to the above provisions, financial conditions applicable to financing described above are defined on a case by case basis in accordance with market conditions.

With Law Decree 24 January 2015, No. 3, Article 3, as converted with amendments with Law 24 March 2015, No. 33, the Article 8 of Decree Law 78 has been further amended. The current Article 8 now set forth that CDP may support export credit and internationalization transactions also without the insurance or guarantee of SACE or any other export credit agencies, national development banks or other financial institutions established pursuant to international agreements.

CDP, along with SACE and SIMEST, announced on 12 April 2016 that they would be taking part in an Italian government initiative aimed at promoting Italian exports to Iran through a series of common integrated initiatives including, potentially, the granting of credit lines issued by CDP under the "export bank" system to Iranian sovereign counterparties in conjunction with the system of credit intermediaries and certain other initiatives by SACE, also in collaboration with SIMEST.

Such initiatives are part of the support to Italian export and internationalisation, which is one of the four pillars included in the 2016-2020 business plan of the CDP Group, as catalysts of

growth for Italy. The objective is to increase support to Italian companies, in part through the creation of a “one-door” service at SACE, in order to facilitate access to the CDP Group’s products and services with the objective of developing international markets.

Following the suspension of certain sanctions vis à vis Iran, such activities will be carried out in compliance with applicable laws and regulations, including international sanctions regimes.

Other transactions in favour of enterprises and other entities under special law provisions

The Article 5, Paragraph 7, Letter (a) Funds are also used by CDP in other supporting initiatives in favour of enterprises and other entities established under special law provisions, such as the funds indicated below.

Pursuant to Article 1, paragraphs 354 to 361, of Law No. 311 of 30 December 2004 (the budget law for 2005) - which reformed certain public incentives in order to (i) transform such incentives from the Italian state’s sunk contribution to subsidised loans granted by CDP (in some cases in addition to a sunk contribution granted directly by the Italian state), and (ii) to involve the banking system in the evaluations relating to the granting of public incentives, providing for its direct participation in the related risks through the necessary complementary granting of medium/long-term loans under market conditions - a revolving reserve fund (*Fondo rotativo per il sostegno alle imprese e gli investimenti in ricerca*) (the "**Revolving Fund for Enterprises**") was implemented, within the Separate Account System, for the granting of fixed rate subsidised loans with CDP funding (the "**Subsidised Loans**").

The Revolving Fund for Enterprises initial resources have been established by law for an amount equal to Euro 6,000 million and such funds are distributed among various incentive programs by CIPE (the Inter-Ministerial Committee for Economic Programming) that determines also, *inter alios*, the general criteria for the issuance of Subsidised Loans and the minimum interest rate applicable to the beneficiaries of the Subsidised Loans. The minimum annual interest rate applicable to the beneficiaries of the Subsidised Loans currently provided for is 0.50 per cent. and their maximum duration being 30 years.

The interest rate payable on amounts disbursed by CDP as Subsidised Loans is determined by virtue of a MEF decree as interest due to CDP. The difference between the rate thus established and the Subsidised Loans interest rate due by the relevant beneficiary is charged to the Italian state, together with an overall amount equal to 0.40 per cent. of the amount granted annually as Subsidised Loans by way of reimbursement of the expenses incurred by CDP in managing the Fund.

As to the involvement of the banking system in the granting of public incentives, the above-mentioned reform provides that having access to a medium/long-term loan granted under market conditions by a banking institution (the "**Lender**") is an eligibility requirement to obtain CDP Subsidised Loans. The evaluation of the duration, amount and conditions (including the security package, if necessary) of the bank loan and the CDP Subsidised Loan

are entrusted to the Lender, which is therefore responsible for the evaluation of the creditworthiness of the beneficiary, provided that the bank loan and the Subsidised Loan shall be guaranteed by the same security package, if any.

The obligation of reimbursing the Subsidised Loan and related interests may be assisted, as a final and residual resource, by a guarantee granted by the Italian state, provided by decree of the MEF and issued in accordance with the criteria, conditions and patterns established in the decree.

Currently the highest quota (58.3 per cent.) of the Revolving Fund for Enterprises' resources is allocated to the research and pre-competitive development sectors. Pursuant to article 30 of Law Decree No. 83 of 22 June 2012, as converted into law, the competent public authorities carried out a survey of the unused resources of the Revolving Fund for Enterprises, 70 per cent. of which shall be set aside for the purposes of a fund constituted by the Ministry of Economic Development (the "**Fund for Sustainable Growth**").

On 17 March 2016, the Ministry of Economic Development, the Italian Banking Association and CDP entered into a framework agreement setting out, *inter alia*, procedures for the granting of facilitated loans further to the implementation of measures of the Fund for Sustainable Growth that has access to the resources of the Revolving Fund for Enterprises'.

Furthermore, Law Decree No. 39 of 28 April 2009 as converted with modifications into law ("**Law Decree 39**") introduced some urgent provisions in favour of the population of the Region of Abruzzo which was affected by earthquakes in April 2009. Pursuant to article 3, paragraph 3 of Law Decree 39, the Article 5, Paragraph 7, Letter (a) Funds may be used, in an amount of up to Euro 2 billion, for the granting of funds to banks which operate in the areas affected by the earthquakes in order for them to grant subsidised loans to the people residing in such affected areas for the reconstruction or repair of estates classifiable as main home which have been destroyed or declared inhabitable or for the purchase of new estates also to be used as main home in substitution of those destroyed by the earthquakes. The reimbursement of the loans by the final beneficiaries to the banks will be guaranteed by the Republic of Italy pursuant to terms and modalities to be established by decree of the MEF. Pursuant to article 3, paragraph 3-*bis* of Law Decree 39, introduced by article 4, paragraph 8-*bis* of Law Decree No. 133 of 2014, converted into Law No. 164 of 2014, the reimbursement of the loans by the banks to CDP is guaranteed by the Republic of Italy pursuant to the terms and practicalities established by decree of the MEF. In particular, the decree established that this public guarantee is on first demand, irrevocable and unconditional. In December 2012, CDP completed the distribution of the entire amount of Euro 2 billion.

In order to remedy the damage caused by the earthquake of May 2012 which affected some of the northern regions of Italy, the Italian government adopted two provisions in favour of the population of the regions of Emilia-Romagna, Lombardy and Veneto, allowing for the creation of two additional CDP funds in the aggregate amount of Euro 12 billion. The first one ("*Plafond Moratoria Sisma 2012*", equal to Euro 6 billion), introduced by article 11 of

Law Decree No. 174 of 10 October 2012, as converted into law, and article 1 of Law Decree No. 194 of 16 November 2012, as integrated by article 1, paragraphs 365-373, of Law No. 228 of 24 December 2012 and article 6 of Law Decree No. 43 of 26 April 2013, as converted into law, is dedicated to the granting of funds to banks which operate in the areas affected by the earthquakes in order for them to grant subsidised loans (with a maximum duration of two years, later extended to 5 years by several regulatory provisions) to the enterprises and workers operating in such affected areas for the deferment of payment of taxes. The second one (Plafond Ricostruzione Sisma 2012, for an additional amount of Euro 6 billion), introduced by article 3-bis of Law Decree No. 95 of 6 July 2012, may be used for the granting of funds to banks which operate in the areas affected by the earthquakes in order for them to grant subsidised loans (with a maximum duration of 25 years) to the people residing and the enterprises operating in such affected areas for the reconstruction or repair of estates for residential and productive use, including plants and equipment. In both cases, the reimbursement of the loans by the banks to CDP is guaranteed by the Republic of Italy pursuant to the terms and practicalities established by decrees of the MEF. In particular, the decrees established that these public guarantees are on first demand, irrevocable and unconditional.

Moreover, in order to remedy the damage caused by the flooding in the region of Sardinia in November 2013, the Italian government adopted provisions in favour of the population of the region of Sardinia. Pursuant to article 7 of Law Decree No. 151 of 30 December 2013, CDP made available a maximum amount of Euro 90 million, analogous to the "Plafond Moratoria Sisma 2012". Even in this case, the reimbursement of the loans by the banks to CDP is guaranteed by the Republic of Italy in accordance with the terms and practicalities established by a decree of the MEF. In particular, the decree established that also this public guarantee is on first demand, irrevocable and unconditional.

Article 2, paragraph 1, letters a) and b) of Law Decree No. 102 of 31 August 2013, introduced the possibility for CDP to use the Article 5, Paragraph 7, Letter (a) Funds for the residential sector. In particular, the provisions allowed CDP to (a) provide funds to the banking system for the granting of mortgages in favour of individuals, dedicated to the purchase of residential property, with priority given to principal houses, and to restructuring costs destined to improve energy efficiency; and (b) purchase cover bonds and asset backed securities, with underlying residential mortgages. Such legislation allowed CDP to launch, respectively, two initiatives, for a total amount of Euro 5 billion, allocated as follows: (i) Euro 2 billion dedicated to the so-called "**Plafond Casa**", and (ii) Euro 3 billion to the purchase of securities.

On the basis of levels of application of the resources of the *Plafond Casa*, on March 2016 the Board of Directors resolved to increase the maximum amount of *Plafond Casa* to Euro 3 billion.

Finally, the Kyoto Fund, established by article 1, paragraphs 1110 to 1115 of Law No. 296 of 27 December 2006, is a fund consisting of an amount of up to Euro 600 million of public

resources, for the granting of subsidised loans in order to reduce emissions responsible for the greenhouse effect and energy efficiency. The aforementioned legislation confers the management of the fund to CDP.

Through the Kyoto Fund, subsidised loans may be granted, at a rate of 0.50 per cent. per annum, with maturities ranging from three to six years (15 years for the public sector). The other beneficiaries can be enterprises, individuals, condominiums and private legal entities.

The first cycle of the Kyoto Fund has been active since March 2012.

The purposes of the Kyoto Fund have been redefined by article 57 of Law Decree No. 83 of 22 June 2012. The new purposes will be adopted in the future cycles of the fund. In particular, funds, reserved for enterprises (ESCos included) shall be used for granting subsidised loans for projects in green economy sectors and connected to the safety of the territory from hydrogeological and seismic risks. The second cycle of the Kyoto Fund was launched in January 2013.

More recently, pursuant to article 9 of Law Decree No. 91 of 2014, converted into Law n. 116 of 2014, the Kyoto Fund has been object of a further reform: the remaining resources of the Kyoto Fund, for an amount of up to Euro 350 million, may be used for the granting of subsidised loans to public entities in order to implement measures to increase the energy efficiency of school buildings, including kindergartens and university end-use efficiency, with CDP being confirmed as manager of the fund. The effective implementation of this provision is remanded to a decree of the Minister of the Environment and the Minister of Economy and Finance, in consultation with the Minister of Economic Development and the Minister of Education, University and Research.

Finally, article 26 of the aforementioned Law Decree No. 91 of 2014 provides for the involvement of CDP in an additional measure, under which the beneficiaries of incentives connected to photovoltaic can access bank loans for a maximum amount equal to the difference between the incentive already due and the incentive reformulated in accordance with the same article 26. These loans can benefit, cumulatively or alternatively, on the basis of agreements with the banking system, of dedicated funding or of guarantees granted by CDP (using Article 5, Paragraph 7, Letter (a) Funds). Pursuant to this provision, the exposure of CDP is guaranteed by the Republic of Italy, according to criteria and procedures established by decree of the MEF, enacted on 29 December 2014. The implementation of the initiative is subject to the signing of two agreements (with MEF and with the Italian Banking Association).

C.1 Equity Investments

During 2015, CDP's equity investments' portfolio under the Separate Account System changed mainly because of the merger of Quadrante in CDP Immobiliare, effective as of the 1 January 2015. The transaction was completed to facilitate the consolidation of the real estate activities performed by CDP Immobiliare.

CDP's equity investments portfolio also changed as a consequence of the following transactions:

- The reduction of SACE's share capital, which occurred in March 2015, for an amount equal to Euro 799 million. The transaction represents the completion of the optimisation process of the capital structure of the company; in addition, in January 2015, SACE issued subordinated bonds to institutional investors for an amount equal to Euro 500 million.
- In September 2015, SACE's board of directors approved the partial recapitalisation of SACE BT S.p.A. ("**SACE BT**") for an amount of up to Euro 48.5 million, in addition to the further optimisation of the capital structure obtained through the issuance of a subordinated loan of Euro 14.5 million in December 2015.
- The increase of the book value of CDP Immobiliare by Euro 178.7 million, of which: (i) Euro 108.6 million capital increase, with the aim of supporting the development of the real estate projects of the company and its subsidiaries; (ii) Euro 70.1 million related to the merger of Quadrante in CDP Immobiliare. In addition, an impairment of the investment in CDP Immobiliare resulted in a reduction of the book value of the CDP's investment in CDP Immobiliare for an amount equal to Euro 63.6 million. The book value as at 31 December 2015 is equal to Euro 500.5 million.

In the course of 2015, Eni S.p.A. continued its transformation process that is bringing the CDP Group to be even more focused on its oil and gas core business. As regarding the engineering and construction sector, in January 2016 an agreement was executed further to the completion of negotiations in October 2015, according to which a 12.5 per cent. stake plus one share in Saipem S.p.A. was sold to Fondo Strategico Italiano S.p.A. ("**FSI**"). Simultaneously, a shareholders' agreement was put in place between FSI and Eni S.p.A..

Moreover, CDP RETI entirely repaid a Euro 1 billion bridge loan facility through: (i) the increase in the term loan facility that CDP RETI has in place with the Issuer and a pool of lenders for a further Euro 250 million (in addition to the initial Euro 500 million) and (ii) the issuance of a bond to institutional investors with a nominal value of Euro 750 million.

C.2 Investments Funds

The size of CDP's investments funds portfolio under the Separate Account System increased by about Euro 154 million in the course of 2015 with respect to 2014; this increase has been mainly determined by drawdowns and distributions carried out by the following funds: Inframed, EEEF, Fondo Investimenti per l'Abitare, FIV Extra and FIV Plus, Fondo Italiano d'Investimento, FoF Private Debt and FoF Venture Capital.

During the course of 2015, CDP continued to focus on its management of investments funds. In particular:

- On 28 April 2015, the second closing of the fund FoF Private Debt for Euro 45 million occurred, with the following subscriptions: Euro 20 million by Istituto Centrale delle Banche Popolari Italiane S.p.A., Euro 15 million by Intesa Sanpaolo S.p.A. and Euro 5 million by Creval; on 30 October 2015 a third closing took place with a Euro 40 million subscription by Poste Vita S.p.A..
- On 28 April 2015, the second closing of the fund FoF Venture Capital occurred with the subscription of Euro 10 million by Istituto Centrale delle Banche Popolari Italiane S.p.A. (Euro 5 million) and Intesa Sanpaolo S.p.A (Euro 5 million) while a third closing took place in January 2016 following further subscriptions for an overall amount of Euro 20 million which increased the total commitment of the Fund to Euro 80 million.
- In the course of 2015, CDP has intensified its relationships with the EIF and other financial institutions in order to seize opportunities for collaboration through the participation in equity investment platforms, with the aim of supporting the growth of small and medium-sized enterprises and developing the venture capital market in Italy.
- On 23 December 2015, CDP increased its commitment in FIV Extra by Euro 50 million. At the end of December 2015, the fund acquired a number of real estate assets, formerly owned by the State, which are now part of the FIV Extra portfolio.

For a detailed description of the equity investments and the investments funds of CDP, please see section 4.1.2 of the report on operations and Part B, section 10 of the Notes to CDP's audited non-consolidated financial statements as at 31 December 2015, incorporated by reference in this Base Prospectus.

D. Funding

D.1 European Investment Bank and Kreditanstalt für Wiederaufbau Loans

In addition to the postal savings instruments and the issue of Notes under the Programme, the funding required by CDP for carrying out the activities falling under the separate account system, as further described below, is raised by CDP by entering into loans with the European Investment Bank and Kreditanstalt für Wiederaufbau (**KfW**).

During 2015, CDP requested and obtained (i) new disbursements on credit facilities from the European Investment Bank for an aggregate amount of Euro 600 million under the Separate Account System and (ii) new disbursements on credit facilities from KfW for an aggregate amount of Euro 400 million under the Separate Account System.

D.2 Multi-Currency Commercial Paper Programme (Programma di Cambiali Finanziarie)

At the beginning of 2014, CDP set up a new Euro 3,000,000,000 multi-currency Commercial Paper Programme (*Programma di Cambiali Finanziarie*) governed by Italian Law pursuant

to Law No. 43 of 13 January 1994 , as amended by Law 7 No. 134 of August 2012. The commercial papers issued by CDP may be listed on ExtraMOT PRO, a non-regulated market organised and managed by Borsa Italiana S.p.A. The proceeds may be used also to finance the Ordinary Account System. The outstanding of issues at 31 December 2015 was of Euro 1,620 billion under the Separate Account System.

D.3 Debt Issuance Programme

With reference to medium to long-term funding under the Programme, in the first half of 2016, CDP issued Notes under the Programme for a nominal amount of Euro 70 million in order to support the Separate Account System.

D.4 Domestic Retail Programme

In March 2015, CDP launched a domestic bond-issuance programme approved by CONSOB reserved to retail investors (individuals residing in Italy). The purpose of the programme is to expand funding sources dedicated to the implementation of projects of public interest, currently funded primarily by postal savings products.

The first bond issued under the domestic retail programme was launched in March 2015. Such bond – issued with a notional amount of Euro 1.5 billion – will expire on 20 March 2022 and bears a fixed-to-floating interest rate, paying interest at a fixed rate for the first two years and at a floating rate for the subsequent five years.

D.5 Stand-alone issues

In December 2015, CDP issued two bonds of Euro 750 million each to support the Separate Account System, under stand-alone documentation.

Such bonds, secured by the Republic of Italy, were wholly subscribed by Poste Italiane S.p.A. – Patrimonio BancoPosta.

CDP ACTIVITIES UNDER THE ORDINARY ACCOUNT SYSTEM

A. Lending

Pursuant to letter b) of paragraph 7 of Article 5, CDP also carries out the financing, in any form, of works, systems, networks and infrastructure to be used for public interest and of investments in research, development, innovation, protection and leveraging of cultural assets, promotion of tourism, environment and energy efficiency and green economy. These activities are carried out through funds raised from investors only by means of the issuance of notes, borrowings and other financial transactions, without a guarantee granted by the Republic of Italy and without any raising of funds first-hand (the "**Ordinary Account System**").

Under the Ordinary Account System, CDP sets out the terms and conditions applicable to each financing without specific restrictions, acting like any other financial intermediary aiming to achieve an appropriate return and financing, on market terms, investments which satisfy its shareholders' requirements in terms of, among other things, target remuneration of capital. In assuming credit commitments, CDP considers the credit standing of each potential borrower, its financial solidity, its business plan's economic and financial soundness, cash flow generation capacity, corporate structure and ability to provide adequate guarantees.

CDP offers a wide range of lending and guarantee products, ranging from plain-vanilla corporate loans to project finance transactions.

Taking into consideration the different targets, purposes and regulations of the relevant lending activities, CDP does not, in principle, commit to financing projects using funds falling under the Ordinary Account System as well as Article 5, Paragraph 7, Letter (a) Funds at the same time.

During 2015, new loans were granted for Euro 1,913 million, while disbursements came to Euro 864 million (gross of repayments). As at 31 December 2015, the stock of loans granted within the Ordinary Account System was Euro 7,248 million, of which Euro 4,939 million were disbursed (net of repayments).

B. Funding

B.1 European Investment Bank Loans and KfW

In addition to the issue of Notes under the Programme, the funding required by CDP for carrying out the activities falling under the Ordinary Account System is raised by CDP by contracting loans with the European Investment Bank and KfW.

B.2 Multi-Currency Commercial Paper Programme (Programma di Cambiali Finanziarie)

With regard to the Euro 3,000,000,000 multi-currency Commercial Paper Programme (*Programma di Cambiali Finanziarie*) established by CDP at the beginning of 2014, at 31 December 2015 the number of outstanding issues under the Ordinary Account System was equal to Euro 345 million.

C. Equity Investments and Investment Funds under the Ordinary Account System

The following table sets out the equity investments and the investment funds under the Ordinary Account System of CDP as at 31 December 2015 and the book value reported in the non-consolidated financial statements at the same date:

C.1 Equity Investments

The portfolio of equity investments under the Ordinary Account System has changed by an overall amount of Euro 1.7 million, due to changes in the fair value of F2i SGR S.p.A. and Fondo Italiano d'Investimento SGR S.p.A..

In 2015, CDP GAS S.r.l. ("**CDP GAS**") was involved in the sale of a portion of its shares in SNAM, owned as a consequence of the transfer of the shareholding of CDP GAS in Trans Austria Gasleitung GmbH ("**TAG**") to SNAM in 2014. Specifically, at the beginning of 2015, CDP GAS sold n. 79,799,362 shares in accordance with the guidelines received by the controlling company CDP, equal to 2.3 per cent. of SNAM's share capital, through a "dribble out" operation. As a result, as at 31 December 2015, CDP GAS owns a 1.1 per cent. participation in SNAM.

In 2015, F2i SGR successfully completed the fundraising of F2i II, overcoming the target size of Euro 1.2 billion with an overall commitment equal to Euro 1,242.5 million. In the context of the fundraising, new international investors have invested in the company, through a capital increase. As a result of this operation, CDP's shareholding in F2i SGR decreased from 16.52 per cent. to 14.01 per cent..

In 2015, Fondo Italiano d'Investimento SGR S.p.A. continued to focus on the venture capital and private debt segments, with the objective of favouring their development in the Italian market after the launch of the 2 new funds of funds in September 2014. The management company is continuing the fundraising process of both funds, for which it will be responsible, with the objective of attracting other investors and reaching the target size.

The portfolio also contains minor participating financial instruments acquired within the restructurings involving Gruppo Sorgenia and Tirreno Power S.p.A. These financial instruments have been booked at a fair value equal to zero.

C.2 Investments Funds

In 2015, the portfolio of investments funds under the Ordinary Account System decreased by about Euro 33 million compared to 2014, mainly due to drawdowns, distributions and valuation differences in relation to F2i - *Fondo Italiano per le Infrastrutture*, F2i - *Secondo Fondo Italiano per le Infrastrutture* and PPP Italia.

During 2015, F2i – Fondo Italiano per le Infrastrutture undertook the following activities: (i) the acquisition of E. On Climate & Renewables Italia Solar s.r.l., a 49 MW company that owns plants for the production and sale of electricity from photovoltaic sources; (ii) the sale of the 49 per cent. stake in 2i Aeroporti to Ardian / Crédit Agricole, which has generated a relevant profit; (iii) the acquisition of Cogipower S.p.A., a 56 MW company that owns plants for the production and sale of electricity from photovoltaic sources; (iv) the acquisition of 10 per cent. of the share capital of Aeroporto Guglielmo Marconi di Bologna S.p.A.; (v) agreement with Enel Green Power S.p.A. for the constitution of a joint venture aimed at favouring a wider integration in the photovoltaic sector.

Moreover, F2i – Secondo Fondo Italiano per le Infrastrutture has acquired an additional 5.16 per cent. stake in SIA's share capital for an amount equal to Euro 12 million and has repaid the tranches of price delays expiring in 2015.

CDP GROUP'S 2016 – 2020 BUSINESS PLAN

On 17 December 2015, the Board of Directors unanimously approved the CDP Group's new business plan (the "**Plan**"), which has as its objective the long-term sustainable development of the Italian economy according to standards of sustainability.

Over a period of five years, the Plan will seek to support the country's growth by mobilising new resources amounting to Euro 160 billion. In addition, thanks to its designation as a National Promotional Institution assigned by the Italian government and the European Union, the CDP Group will be able to administer more than Euro 100 billion in additional national and foreign private and public resources. These further funds will be primarily generated by three sources: (i) resources provided by the EU and the European Investment Bank, also in the framework of the so-called "Juncker plan", which focuses on removing obstacles to investment, providing visibility and technical assistance to investment projects and making smarter use of new and existing financial resources throughout the European Union. The Juncker plan was approved by the European Parliament in June 2015 and provides the establishment of the European Fund for Strategic Investments ("**EF**SI"), that should help implement the EU's €315 billion plan to overcome the crisis-induced shortage of investment in the European economy. The aim of EF

SI, that will be managed by the European Investment Bank (EIB), is to provide public support for projects that are economically viable, but would not otherwise happen because private investors are hesitant to finance them due to

the uncertain economic situation and the higher risk involved. EFSI will assume part of that risk, thus encouraging private investors to get on board. (ii) co-financing with other financial intermediaries including national promotional institutions; and (iii) the attraction of capital by private international and Italian institutional investors in the form of stable investments.

The Plan envisages comprehensive action to guide Italy's growth along four key vectors: support for government institutions and local authorities, infrastructure enhancement, support for businesses, and development of real estate assets.

These initiatives will be realised in such a manner so as to ensure balanced economical, and financial stability and an adequate level of profitability for CDP.

A breakdown of initiatives

In January 2016, the CDP Group initiated a series of deep and complex interventions in the areas with the greatest development potential in Italy.

Government and Public Administration. Support for public entities will be provided through the mobilisation of Euro 15 billion in resources (an increase of 22 per cent. compared with the previous five years) and the strengthening of the CDP Group's local network. To counter the impact of the limits imposed by Italy's internal stability pact, prepared in accordance with EU legislation, CDP will continue its role as the leading provider of financing to local governments, as well as developing complementary instruments alongside traditional loans, such as the development of real estate assets and equity investments in utilities and the optimisation of the management and use of EU structural funds. Finally, the CDP Group will also support the revival of international cooperation.

Infrastructure. The Plan also seeks to stimulate the country to raise its game in the effort to bridge the infrastructure gap that divides Italy from other European countries, partly a consequence of the long delays involved in starting and executing projects. To this end, CDP intends to take a proactive role through advisory services and to mobilise resources amounting to Euro 24 billion (an increase of 23 per cent. compared with the previous five years) to support the establishment of networks (physical and digital), strategic infrastructure hubs (ports, airports) and the modernisation of existing infrastructure giving incentives for public-private-partnerships.

In addition, access to capital markets will be expanded through the provision of credit enhancements for major infrastructure projects, the launch of new tools – equity as well as debt - for the development of small-scale infrastructure and participation in national and international infrastructure funds.

Finally, special attention will be paid to environmental protection, including through investments in the waste-to-energy field and in funds that promote energy efficiency.

Enterprises. The plan mobilizes Euro 117 billion (an increase of 73 per cent. compared with the previous five years) and envisages intervention in support of all phases of the life cycle of enterprises.

Venture capital. CDP will consolidate its role as a leading Italian venture capital operator, encouraging the creation of start-ups, and will intensify its support for innovation and the development of enterprises and their growth. Further investments are expected in Fund of Funds Venture Capital through the Fondo Italiano d'Investimento and other "late-stage" investments through platforms with other European partners. CDP also plans to participate in platforms for co-financing or stimulating the development of public/private partnerships.

Innovation and development. Actions will be taken to facilitate access to funding by SMEs through the use of risk-sharing instruments with Italian and international financial institutions and supporting the development of alternative markets (e.g. ABS, credit funds). Funding and financing will be provided for innovative firms and projects. Direct support will also be offered for the expansion of industries. An additional operational tool will be represented by a new investment vehicle to support the growth of medium-to-large companies through growth capital.

Investments in companies of national importance. Assets of national importance currently held by the FSI will be reorganised through the establishment of a portfolio with a focus on systemic relevance with a long-term view.

International Expansion. Support for international expansion and exports will be strengthened and optimised through the creation of a single dedicated hub, established at SACE level, which will integrate all the CDP Group's activities for the sector. Specific measures will also be developed to maximise firms' access, including medium-sized enterprises, to the CDP Group's range of financial/insurance products.

Restructurings. The CDP Group will also intervene in corporate restructuring transactions, acting as anchor investor in a company, which will be controlled by private investors, with the aim of favouring the re-launch of Italian firms that, notwithstanding temporary asset and/or financial difficulty, are characterised by adequate industrial and market potential.

Real estate. In addition to support for leveraging public real estate holdings, the plan provides for the CDP Group to contribute to the development of the Italian real estate market through its role as the main operator in the social and affordable housing sector and the implementation of regeneration and development initiatives in strategic areas for the country. The effort will also involve tourism, a key sector of the economy, through the enhancement of tourist infrastructure to be achieved with the creation of a dedicated investment vehicle. Total planned resources amount to Euro 3.8 billion (an increase of 110 per cent. compared with the previous five years).

Group Governance. In line with the Plan, CDP will intervene to strengthen the CDP Group's governance model, enhance internal expertise (to align skills with our new operational areas) and expand its local presence by further developing the CDP Group's branch network.

Compensation Committee

The Compensation Committee is appointed by the Board of Directors and is composed by three non-executive directors. The committee is tasked with assisting in the evaluation of the compensation of the Chairman, the Chief Executing Officer and the General Manager and,

where possible, of the other administrative bodies of the company required by law or by virtue of CDP's by-laws, including those established by the Board of Directors (i.e. the committees). The proposals made by the Compensation Committee are submitted for the approval of the Board of Directors, upon prior opinion of the Board of Statutory Auditors.

As at the date hereof, the Compensation Committee is composed by the following members: Carla Patrizia Ferrari (Chairman), Alessandro Rivera e Alessandra Ruzzu.

Internal controls, risk management and compliance

CDP has developed an internal control framework consisting of a set of rules, procedures, and organisational structures aimed at ensuring compliance with the applicable regulations, in accordance with its corporate strategies and the achievement of targets set by company management.

In particular, CDP has implemented the internal control system according to the three lines of defence model. The so-called "first level controls" (line controls) are carried out by business units, including the back office unit and, where possible, are correlated by IT procedures. These controls are detailed in internal written procedures and are designed to ensure that transactions are carried out correctly.

The so-called "second level controls" (risk management controls) are carried out by dedicated and independent units that are not in charge of front office activities, i.e. the risk management function, the compliance function and the anti-money laundering function. According to the relevant regulations and best practices, these independent, separate and permanent second level functions are both under the direction of an independent Chief Risk Officer.

The risk management controls are designed, *inter alia*, to establish risk measurement methodologies and verify that the operational limits set for the different areas are respected, as well as to ensure the coherence between the risks taken by the business units and the risk policy approved by the Board of Directors.

The risk management division of CDP provides outsourcing and co-sourcing services for a number of subsidiaries that are subject to the management and coordination (*direzione e coordinamento*) of CDP, pursuant to specific service agreements with CDP for risk management activities.

In addition, so called "second level controls" (compliance controls) are carried out by the CDP compliance function. The CDP compliance function ensures, on a risk based approach, the compliance risk management, which can be defined as the risk of legal or administrative sanctions, financial loss, or reputational risk a company may suffer as a result of its failure to comply with all applicable laws and regulations or self-regulatory arrangements (*i.e.* codes of conduct, codes of ethics, internal procedures).

The primary duties of the compliance function include:

- identifying, on an on-going basis, the relevant laws and regulations applicable to CDP and assessing the related impact on the internal processes and procedures, and more generally, within the whole organisation;
- identifying the appropriate internal procedures in order to manage the compliance risk and verifying its effectiveness and adequacy;
- making proposals related to organisational and procedural changes in order to ensure that compliance risks identified are managed appropriately;
- reporting appropriately and periodically to the governing bodies and corporate structures involved;
- verifying the effectiveness and adequacy of the organizational measures suggested to manage compliance risk;
- coordinating the compliance functions of the companies subject to the management and coordination (*direzione e coordinamento*) of CDP, in order to guarantee an integrated management of the risk of non-compliance within the CDP Group.

The compliance function, on an on-going basis, prevents reputational risk in order to ensure the protection of the CDP Group's reputation according to the risk appetite framework established by the Board of Directors.

Furthermore, pursuant to Italian Decree No. 231 of 22 June 2007 and the measures issued by the Bank of Italy, CDP appointed the Chief Risk Officer as the company's legal representative concerning anti-money laundering compliance. As a result, the risk management unit includes a separate anti-money laundering function. Such function carries out additional controls in order to appropriately know the relevant "customers" involved in transactions with CDP as well as any suspicious transactions and promptly inform the supervisory authority.

Finally, the so-called "third level controls" are performed by the internal audit unit, a permanent, autonomous function that does not report to the heads of the units subject to control.

Within the internal audit unit's mission there is, among other things, the evaluation of the completeness, adequacy, functionality and reliability of the organisational structure and of the overall system of internal controls of the CDP Group and to report to the Board of Directors possible improvements to the process of risk management as well as their measurement and control tools.

Therefore, the controls performed by internal audit unit aims to prevent and detect risks and anomalies and to report to the Board of Directors and to the management any critical issue to achieve corporate goals, promoting initiatives of continuous improvement of the effectiveness and efficiency of the organisation.

Specifically, the internal audit unit assesses the ability of the overall internal control system to ensure that CDP's corporate processes are efficient and effective, safeguard company and investor assets, guarantee the reliability and integrity of accounting and management information, and compliance with internal and external regulations and management guidelines.

For the execution of its activities, the internal audit unit annually prepares, updates and presents to the Board of Directors an audit plan. It sets out the audits scheduled to analyse risks based on the importance of each process within the overall framework of the activities involved in achieving the business objectives.

The internal audit unit reports on its results, after examination by of the risk committee (following the amendments to CDP's by-laws approved on 10 July 2015) to the Board of Directors and the Board of Statutory Auditors on a quarterly basis. However, critical issues identified during examinations are immediately reported to the relevant company units so that they can implement corrective actions.

The risk committee are assigned responsibilities in controlling and formulating proposals concerning risk managements matters and the evaluation over the adoption of new products.

The internal audit unit also performs control activities over a number of subsidiaries (CDP EQUITY, SIMEST, CDPI SGR and CDP Immobiliare) subject to the management and coordination (*direzione e coordinamento*) of CDP in accordance with specific service agreements with CDP for internal audit activities.

Furthermore, the internal audit unit advises other units, both within CDP and those of other members of the CDP Group, on improving internal audit activities and assists the manager responsible for preparing the company financial reports (according to Law No. 262 of 28 December 2005) and the supervisory bodies in CDP, CDP Equity, CDPI SGR and SIMEST established pursuant to Decree 231 in carrying out their work.

Finally, the internal audit unit deals with the appropriate checks in order to ensure compliance with the internal discipline of the internal capital adequacy assessment process and of the processes followed for the selection and hiring of the personnel.

MATERIAL CONTRACTS

The Issuer has not entered into any material contracts during the years 2014 and 2015 outside of its ordinary course of business that have been or may reasonably be expected to be material to the Issuer's ability to meet its obligations to the Noteholders.

RECENT EVENTS

The reorganisation of the operations of FSI

On 31 March 2016, the shareholders' meeting of FSI approved the new corporate organisation and governance arrangements, which envisage a name change to CDP Equity S.p.A., which will work with the parent company, CDP, in managing long-term investments in large strategically important enterprises. CDP Equity's portfolio will include Ansaldo Energia, Metroweb, Saipem and SIA.

Fondo Strategico Italiano SGR S.p.A. was also formed in order to support the growth plans of medium and large companies with significant prospects for development, including by attracting growth capital from private investors in Italy and abroad. The company, which is currently 100 per cent. owned by CDP, will seek out other shareholders and management as investors (even reducing CDP's interest below 50 per cent.) and it will apply for authorisation to sponsor and manage an initial closed-end fund focusing on investment to expand companies with strong growth potential.

Atlante Fund

During the month of April 2016, CDP has voluntarily adhered, together with the most relevant Italian banks and insurance companies, to the Atlante Fund, a closed-end alternative investment fund the purpose of which is to increase the value of its assets by performing investments transactions through (i) the subscription of capital increases of Italian banks with a lower capital ratio than the minimum established in the context of the SREP (Supervisory Review and Evaluation Process), to be carried out by subscription of shares and (ii) the purchase of financial instruments issued in the context of securitisations of non-performing loans. CDP's minority interest in the Atlante Fund is limited to a maximum amount of Euro 500 million, and does not imply any intervention in the governance of Quaestio, the independent asset management company that manages the Atlante Fund.

LEGAL PROCEEDINGS

Legal disputes of the Issuer

Regarding pending disputes of the Issuer, the overall number of cases, as well as the estimated potential liabilities, remain, in absolute terms, at insignificant levels and, even in relative terms, the impact of the estimated potential expenses on the Issuer's accounts is absolutely negligible.

With regard to the Separate Account System, as at 31 December 2015, 74 suits were pending with a total estimated liability of about Euro 28,000.00, of which 5 relating to disputes with suppliers.

There are no material disputes that could suggest the presence of critical issues with respect to the compliance by CDP with internal procedures or applicable laws and regulations.

As regards the conversion of preference shares into ordinary shares, following the exercise of the right of withdrawal, the Fondazione Cassa di Risparmio di Verona, Vicenza, Belluno e Ancona filed a suit involving a claim of considerable size (about Euro 432 million). However, the risk of losing this dispute, while possible, is not considered to be high.

With reference to the Separate Account, against the risk – considered likely – of the occurrence of a future liability connected to the request received from an investee (with which an agreement had been entered into according to which CDP would repay the dividends, received in excess, in the proportional amount established in the civil proceedings, by final ruling, to be paid by the private shareholders) a total of €19.2 million was set aside.

There are currently no pending disputes in relation to the Ordinary Account System and, therefore, no potential liabilities for CDP.

Lastly, with regard to employment disputes, as at 31 December 2015, 31 cases were pending, for which the estimated total potential liability is approximately Euro 3 million. Accordingly, the observations made above in relation to disputes relating to the Separate Account System also apply. In particular, the estimated potential costs, both in absolute and relative terms, are absolutely negligible with respect to the volumes in CDP's financial statements.

Legal disputes relating to certain subsidiaries of CDP

SACE

As at 31 December 2015, SACE was involved in 34 disputes, the vast majority of which related to insurance commitments undertaken prior to 1998. More specifically, 24 passive litigation claims were pending against the company, for which SACE has made a provision of about Euro 26.3 million in its financial statements. Conversely, ten active litigation claims have been commenced by SACE in the context of which the latter has claimed the payment of around Euro 227.2 million.

Furthermore, as at 31 December 2015, SACE was involved in 38 suits brought by the company to obtain recognition of the privileged nature of its claims in bankruptcy proceedings, pursuant to Legislative Decree No. 123 of 31 March 1998, in relation to compensation paid (or being paid) against guarantees issued in support of the internalisation of businesses.

Fintecna

As at 31 December 2015, Fintecna was monitoring and managing 860 legal disputes in which the company is involved. In particular, the management is aimed at supporting external legal counsel in order to guide the procedural strategy with specific reference to certain employment and civil/administrative/tax disputes.

With regard to the employment disputes, the upward trend was confirmed in terms of number of petitions filed by former employees of Fintecna, claiming damages for illnesses allegedly contracted due to the unsafe conditions in the workplace.

In order to minimise costs, settlement solutions continued to be pursued, where certain financial and legal conditions were satisfied and on the basis of the specific characteristics of each specific case; satisfactory results were thus achieved, especially when compared to the risk of incurring significant costs in the event of adverse judicial outcome.

Conversely, judicial proceedings were actively pursued where a favourable outcome was considered likely. With reference to the management of civil/administrative/tax disputes, the complexity of which previously precluded the possibility of an out-of-court settlement, it should be noted that the conclusion of judicial proceedings is inevitably affected by the long delays in the judicial system, which makes the length of litigation extremely unpredictable.

It should be also be noted that, in order to exclude any potential liability with respect to contamination and environmental pollution situations for areas of the Ilva S.p.A. (in administration (*amministrazione straordinaria*)) (“**Ilva**”) steelworks, in implementation of the provisions of Legislative Decree No. 1 of 5 January 2015 (converted into Law No. 20 of 4 March 2015), Fintecna signed a settlement agreement (the “**Settlement Agreement**”) with the Official Receivers of Ilva, under which Fintecna has paid an amount of €156 million, in exchange for establishment of the “environmental” indemnity obligations provided for in Article 17.7 of the Settlement Agreement for the sale of the block of shares of the former Ilva Laminati Piani (now Ilva).

SIMEST

As at 31 December 2015, SIMEST initiated 86 legal actions for the recovery of certain outstanding amounts (principal plus income for loans in equity investments).

Specifically, the claim amount for the proceedings relating to Law 24 April 1990 No. 100 totals about Euro 35 million, of which about 94 per cent. is secured by bank guarantees or already written down in the balance sheet of SIMEST as at 31 December 2015.

Finally, as regards employment disputes, as at 31 December 2015, two suits were pending involving a total potential claim not exceeding Euro 0.1 million (whilst making corresponding provisions in their financial statements).

CDP Immobiliare

As at 31 December 2015, CDP Immobiliare was involved in 109 civil and administrative disputes. In particular, 76 claims involved CDP Immobiliare and 33 involved its subsidiaries.

As at 31 December 2015, there was a downward trend in terms of number of proceedings, which were mostly related to the management of real estate assets (clearing of buildings occupied without title, purchases and sales, debt recovery, environment, etc).

Furthermore, as at 31 December 2015, CDP Immobiliare was involved in 11 tax disputes. In particular, 7 were related to revenue taxes and 4 were related to local taxes on buildings.

On the basis of the assessment on the potential outcome of such proceedings, specific provisions in financial statements have been made.

TAXATION

Italian taxation

The following is a general summary of current Italian law and practice relating to certain Italian tax considerations concerning the purchase, ownership and disposition of the Notes. It does not purport to be a complete analysis of all tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with the tax consequences applicable to all categories of prospective beneficial owners of Notes, some of which may be subject to special rules. The following summary does not discuss in details the treatment of Notes that are held in connection with a permanent establishment or fixed base through which a non-Italian resident beneficial owner carries on business or performs professional services in Italy.

This summary is based upon tax laws in force in Italy in effect as at the date of this Base Prospectus, which may be subject to any changes in law occurring after such date potentially with retroactive effect. Prospective purchasers of Notes should consult their tax advisers as to the consequences under Italian tax law, under the tax laws of the country in which they are resident for tax purposes and of any other potentially relevant jurisdiction of acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes, including in particular the effect of any state, regional or local tax laws. This paragraph does not intend and cannot be construed as a tax advice to prospective purchaser of the Notes.

Italian Tax treatment of the Notes

The Decree No. 239 regulates the tax treatment of interest, premiums and other income (including the difference between the redemption amount and the issue price) (hereinafter collectively referred to as "**Interest**") deriving from Notes falling within the category of bonds (*obbligazioni*) and securities similar to bonds (pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986, as amended and supplemented ("**Decree No. 917**") issued, *inter alia*, by CDP pursuant to the provisions of Article 5, paragraph 25, of Law Decree No. 269 of 30 September 2003, converted with amendments into Law No. 326 of 24 November 2003, as supplemented from time to time.

For these purposes, securities similar to bonds ("*titoli similari alle obbligazioni*") are securities that incorporate an unconditional obligation of the issuer to pay at maturity an amount not lower than their nominal value, with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Italian Resident Noteholders

Pursuant to Decree No. 239, payments of Interest relating to Notes is subject to the *imposta sostitutiva*, levied at the rate of 26 per cent. if the Noteholder is:

- (i) an individual resident in the Republic of Italy for tax purposes, holding the Notes otherwise than in connection with entrepreneurial activities, unless he has entrusted the management of their financial assets, including the Notes, to an Authorised Intermediary and has opted for asset management option (the "*Risparmio Gestito*" regime) according to Article 7 of Legislative Decree No. 461 of 21 November 1997 as amended ("**Decree No. 461**"); or
- (ii) Italian resident partnership (other than *società in nome collettivo*, *società in accomandita semplice* or similar partnerships), or a de facto partnership not carrying out commercial activities and professional associations; or
- (iii) Italian resident public and private entities other than companies, trusts not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial entities, with the exclusion of collective investment funds; or
- (iv) Italian resident entities exempt from Italian corporate income tax.

All the above categories are usually referred as "net recipients".

In the event that the Italian resident Noteholders mentioned above hold the Notes in connection with an entrepreneurial activity (*attività d'impresa*), the *imposta sostitutiva* applies as a provisional tax. Interest will be included in the relevant beneficial owner's Italian income tax return and will be subject to Italian ordinary income taxation and the *imposta sostitutiva* may be recovered as a deduction from Italian income tax due.

Interest accrued on the Notes must be included in the relevant Noteholder's annual corporate taxable income (and in certain circumstances, depending on the "status" of the Noteholders, also in the net value of production for purposes of regional tax on productive activities ("**IRAP**")) if the Noteholder is an Italian resident corporation or permanent establishment in Italy of foreign corporation to which the Notes are effectively connected, subject to tax in Italy in accordance with ordinary tax rules.

Pursuant to Decree No. 239, the *imposta sostitutiva* is levied by banks, *società di intermediazione mobiliare* ("**SIM**"), fiduciary companies, *società di gestione del risparmio* ("**SGR**") and other entities identified by the Ministry of Finance (each, an "**Intermediary**"). An Intermediary must (a) be resident in Italy, or be a permanent establishment in Italy of a non-Italian resident financial intermediary, and (b) participate, in any way, in the collection of Interest or in the transfer of the Notes.

Where the Notes are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by the relevant Italian financial intermediary (or permanent establishment in Italy of a non-Italian resident financial intermediary) paying the Interest to a Noteholder, or, in its absence, by the Issuer.

Payments of Interest in respect of Notes will not be subject to the *imposta sostitutiva* if made to beneficial owners who are:

- (i) Italian resident corporations or permanent establishments in Italy of non-resident corporations to which the Notes are effectively connected;
- (ii) Italian resident individuals holding Notes otherwise than in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Notes to an authorised financial intermediary and have opted for the *Risparmio Gestito* regime; Italian resident individuals holding Notes otherwise than in connection with entrepreneurial activity who have opted for the *Risparmio Gestito* regime are subject to an annual substitutive tax of 26 per cent. (the "**Asset Management Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which increase would include interest and other proceeds accrued on the Notes). The Asset Management Tax is applied by authorised Intermediaries;
- (iii) Italian resident pension funds referred to in Legislative Decree No. 252 of 5 December 2005 ("**Decree No. 252**"). Italian resident pension funds subject to the regime provided by Articles 17, of Legislative Decree No. 252 of 5 December 2005 are subject to an annual substitutive tax of 20 per cent. (the "**Pension Fund Tax**") on the increase in value of the managed assets accrued at the end of each tax year (which would include Interest accrued on the Notes, if any). As of 1 January 2015, a tax credit equal to 9 per cent. of the result of the relevant portfolio accrued at the end of the tax period is recognised to Italian resident pension funds which invest in certain medium long term financial assets to be identified with the Ministerial Decree of 19 June 2015 published in the Official Gazette – general series No. 175, on 30 July 2015;
- (iv) open ended or closed ended investment funds, investment companies with fixed capital (SICAFs) or investment companies with variable capital (SICAVs) established in Italy when either (i) the fund, the SICAF or the SICAV or (ii) their manager is subject to the supervision of a regulatory authority (the "**Fund**") and the relevant Notes are held by an authorised intermediary. In such case, interest, premium and other income accrued during the holding period on the Notes will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund. The Fund will not be subject to taxation on such results, but a withholding tax of 26 per cent. may apply on income of the Fund derived by unitholders or shareholders through distribution and/or redemption or disposal of the units and shares;
- (v) Italian resident real estate investment funds (complying with the definition as amended pursuant to Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010) established after 26 September 2001 pursuant to Article 37 of Legislative Decree No. 58 and Article 14-bis of Law No. 86 of 25 January 1994, or in any case subject to the tax treatment provided for by Law Decree No. 351 of 25 September 2001, converted into law with amendments by Law No. 410 of 23 November 2001 ("**Decree No. 351**") and Italian resident SICAFs to which the provisions of Article 9 of Legislative Decree No. 44 of 4 March 2014 (the "**Decree No. 44**") apply, hereinafter the ("**Real Estate Investment Funds**"); and

Non-Italian Resident Noteholders

- (i) Where the Noteholder is a non-Italian resident (with no permanent establishment in the Republic of Italy to which the Notes are effectively connected), provided that the non-Italian resident beneficial owner is:
- (a) resident, for tax purposes, in a State or territory included in the list of States or territories allowing an adequate exchange of information with the Italian tax authorities and listed in a Ministerial Decree to be issued under Article 11, par. 4, let. c) of Decree no. 239 (the "**White List**"). The White List will be updated every six months period. In absence of the issuance of the White List, reference has to be made to the Italian Ministerial Decree dated 4 September, 1996; or
 - (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or
 - (c) an "institutional investor", whether or not subject to tax, which is established in a country which allows for a satisfactory exchange of information with Italy; or
 - (d) a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State;

all the requirements and procedures set forth in Decree No. 239 and in the relevant application rules, as subsequently amended and supplemented, in order to benefit from the exemption from substitute tax are timely met and complied with.

Such categories are usually referred as "gross recipients". To ensure payment of Interest in respect of the Notes without the application of *imposta sostitutiva*, gross recipients must (i) be the beneficial owners of payments of Interest on the Notes; (ii) timely deposit the Notes together with the coupons relating to such Notes, if any, directly or indirectly with an Italian authorised financial intermediary (or permanent establishment in Italy of a foreign intermediary); and (iii) in the event of non-Italian resident beneficial owners timely file with the relevant depository (which may be a non-Italian resident entity participating in a centralised securities management system connected via telematic link with the Italian Ministry of Economy and Finance) a self-declaration (*autocertificazione*) stating their residence, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information. Such self-declaration is valid until withdrawn or revoked and may not be filed in the event that a certificate, declaration or other similar document with an equivalent purpose has previously been filed with the same depository.

Any positive difference between the nominal amount of the Notes and their issue price is deemed to be Interest for tax purposes.

Taxation of Capital Gains

Any capital gain realised upon the sale for consideration, transfer or redemption of the Notes would be treated as part of the taxable business income (and, in certain cases depending on the status of Noteholder, may also be included in the taxable net value of production for IRAP purposes), subject to tax in Italy according to the relevant tax provisions, if derived by Noteholders who are:

- (a) Italian resident corporations;
- (b) permanent establishments in Italy of foreign corporations to which the Notes are effectively connected; or
- (c) Italian resident individuals carrying out a commercial activity, as to any capital gains realised within the scope of the commercial activity.

Pursuant to Legislative Decree No. 461, any capital gain realised by Italian resident individuals holding Notes otherwise than in connection with entrepreneurial activity and certain other persons upon sale for consideration or redemption of the Notes would be subject to a substitute tax at the current rate of 26 per cent..

Under the tax return regime (the "*Regime della Dichiarazione*"), which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activity, substitute tax on capital gains will be chargeable, on a cumulative basis, on all capital gains, net of any relevant incurred capital loss, realised by Italian resident individual Noteholders holding Notes otherwise than in connection with entrepreneurial activity pursuant to all disposals of Notes carried out during any given tax year. Italian resident individuals holding Notes not in connection with entrepreneurial activity must report total capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return to be filed with the Italian tax authorities for such year and pay substitute tax on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains of the same kind realised in any of the four succeeding tax years. Capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

As an alternative to the tax return regime depicted above, Italian resident individual Noteholders holding Notes otherwise than in connection with entrepreneurial activity, Italian resident partnerships not carrying out commercial activities and Italian private or public institutions not carrying out mainly or exclusively commercial activities, may elect to pay 26 per cent. substitute tax separately on capital gains realised on each sale, transfer or redemption of the Notes (the "*Risparmio Amministrato*" regime). Such separate taxation of capital gains is allowed subject to (i) the Notes being deposited with Italian banks, *società di intermediazione mobiliare* (SIM) or certain authorised financial intermediaries; and (ii) an

election for the *Risparmio Amministrato* regime being timely made in writing by the relevant Noteholder. The financial intermediary is responsible for accounting for substitute tax in respect of capital gains realised on each sale, transfer or redemption of the Notes (as well as in respect of capital gains realised at revocation of its mandate), net of any relevant incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from proceeds to be credited to the Noteholder. Under the *Risparmio Amministrato* regime, the Noteholder is not required to declare capital gains in its annual tax return and remains anonymous. Capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

Any capital gains on Notes held by Italian resident individuals otherwise than in connection with entrepreneurial activity, Italian resident partnerships not carrying out commercial activities and Italian private or public institutions not carrying out mainly or exclusively commercial activities, who have elected for the *Risparmio Gestito* regime will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to the Asset Management Tax to be applied on behalf of the taxpayer by the managing authorised intermediary. Under the *Risparmio Gestito* regime, any depreciation of the managed assets, accrued at year end, may be carried forward against any increase in value of the managed assets accrued in any of the four subsequent years. Under the *Risparmio Gestito* regime, the Noteholder is not required to report capital gains realised in its annual tax return and remains anonymous. Depreciations of the managed assets may be carried forward to be offset against any subsequent increase in value accrued as of 1 July 2014 for an overall amount of: (i) 48.08 per cent. of the relevant depreciations in value registered before 1 January 2012; (ii) 76.92 per cent. of the depreciations in value registered from 1 January 2012 to 30 June 2014.

Any capital gains on Notes held by Noteholders who are Italian resident pension funds subject to the regime provided by Article 17 of Decree No. 252, will be included in the computation of the taxable basis of Pension Fund Tax. As of 1 January 2015, a tax credit equal to 9 per cent. of the result of the relevant portfolio accrued at the end of the tax period is recognised to Italian resident pension funds which invest in certain medium long term financial assets to be identified with the Ministerial Decree of 19 June 2015 published in the Official Gazette – general series No. 175, on 30 July 2015.

Any capital gains realised by a Noteholder which is a Fund will not be subject to imposta sostitutiva, but will be included in the result of the relevant portfolio. The Fund will not be subject to taxation on such result but a withholding tax of 26 per cent. may apply on income of the Fund derived by unitholders or shareholders through distribution and/or redemption or disposal of the units and shares.

Capital gains on Notes held by Italian Real Estate Investment Funds are not taxable at the level of same Real Estate Investment Funds.

The 26 per cent. substitute tax on capital gains may, in certain circumstances, be payable on capital gains realised upon sale for consideration or redemption of the Notes by non-Italian resident persons or entities without a permanent establishment in Italy to which the Notes are effectively connected, if the Notes are held in Italy.

Capital gains realised by non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected through the sale for consideration or redemption of Notes are exempt from taxation in Italy to the extent that the Notes are traded on a regulated market in Italy or abroad and in certain cases subject to prompt filing of required documentation (in particular, a self-declaration of non-residence in Italy for tax purposes) with Italian qualified intermediaries (or permanent establishments in Italy of foreign intermediaries) with whom the Notes are deposited, even if the Notes are held in Italy and regardless of the provisions set forth by any applicable double tax treaty.

In case the Notes are not traded on a regulated market in Italy or abroad:

- (a) pursuant to the provisions of Decree No. 461, of Decree No. 350 and of Decree No. 239, non-Italian resident beneficial owners of the Notes with no permanent establishment in Italy to which the Notes are effectively connected are exempt from taxation in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Notes if they are resident, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information. In this case, if non-Italian residents without a permanent establishment in Italy to which the Notes are effectively connected elect for the *Risparmio Amministrato* regime or the *Risparmio Gestito* regime, exemption from Italian taxation on capital gains will apply upon condition that they file in due time with the authorised financial intermediary an appropriate self-declaration stating that the requirement of tax residence in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information is met.
- (b) in any event, non-Italian resident persons or entities without a permanent establishment in Italy to which the Notes are effectively connected that may benefit from a double taxation treaty with the Republic of Italy, providing that capital gains realised upon sale or redemption of Notes are to be taxed only in the country of tax residence of the recipient, will not be subject to taxation in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of Notes.

In this case, exemption from Italian taxation on capital gains will apply upon condition that they file in due time with the authorised financial intermediary appropriate documents which include, *inter alia*, a statement from the competent tax authorities of the country of residence of the non-Italian residents.

The *Risparmio Amministrato* regime is the ordinary regime automatically applicable to non resident persons and entities in relation to Notes deposited for safekeeping or administration at Italian banks, SIMs and other eligible entities, but non-resident Noteholders retain the right to waive this regime. Such waiver may also be exercised by non-resident intermediaries in respect of safekeeping, administration and deposit accounts held in their names in which third parties' financial assets are held.

Inheritance and gift tax

Pursuant to Law Decree No. 262 of 3 October, 2006, converted into Law No. 286 of 24 November, 2006 as amended by Law No. 296 of 27 December 2006, the transfers of any valuable asset (such as the Notes) by reason of gift, donation or succession proceedings is subject to Italian gift and inheritance tax as follows:

- (a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent. on the value of the inheritance or the gift exceeding Euro 1,000,000.00 (per beneficiary);
- (b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent. on the entire value of the inheritance or the gift;
- (c) transfers in favour of brothers/sisters are subject to the 6 per cent. inheritance and gift tax on the value of the inheritance or the gift exceeding Euro 100,000.00 (per beneficiary); and
- (d) any other transfer is subject to an inheritance and gift tax applied at a rate of 8 per cent. on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax applies on the value exceeding Euro 1,500,000.

Moreover, an anti-avoidance rule is provided for by Law No. 383/2001 for any gift of assets (such as the Notes) which, if sold for consideration, would give rise to capital gains to the "*imposta sostitutiva*" provided for by Italian Decree No. 461/1997. In particular, if the donee sells the Notes for consideration within 5 years from the receipt thereof as a gift, the donee is required to pay the relevant "*imposta sostitutiva*" on capital gains as if the gift was not made.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (i) public deeds and notarized deeds (*atti pubblici e scritture private autenticate*) are subject to fixed registration tax at rate of €200; (ii) private deeds (*scritture private non autenticate*) are subject to registration tax at rate of €200 only in case of use or voluntary registration or occurrence of the so-called *enunciazione*.

Stamp duty on financial instruments

Pursuant to Article 13 par. 2/ter of the tariff Part I attached to Presidential Decree No. 642 of 26 October 1972, a proportional stamp duty applies on an annual basis to any periodic reporting communications which may be sent by a financial intermediary to their clients in respect of any Notes which may be deposited with such financial intermediary in Italy. The stamp duty applies at a rate of 0.2 per cent. and it cannot exceed €14,000 for taxpayers which are not individuals. This stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Notes held.

The statement is considered to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release or the drafting of the statement. In case of reporting periods of less than 12 months, the stamp duty is payable pro-rata.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy on 24 May 2012, the stamp duty applies to any investor who is a client (as defined in the regulations issued by the Bank of Italy on 20 June 2012) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Wealth tax on financial assets deposited abroad

According to Article 19 of Law Decree No. 201 of 6 December 2011, Italian resident individuals holding financial assets – including the Notes – outside of the Italian territory are required to pay in its own annual tax declaration a wealth tax at the rate of 0.2 per cent. This tax is calculated on the market value at the end of the relevant year or – if no market value figure is available – on the nominal value or redemption value, or in the case the nominal or redemption values cannot be determined, on the purchase value of any financial asset (including banking bonds, *obbligazioni* and capital adequacy financial instruments) held outside of the Italian territory. The Italian tax authority clarified (Circular No. 28/E of 2 July 2012) that financial assets held abroad are excluded from the scope of the wealth tax if they are administered by Italian financial intermediaries.

Tax monitoring obligations

Pursuant to Law Decree No. 167 of 28 June 1990, converted by Law No. 227 of 4 August 1990, as amended by Law No. 97 of 6 August 2013 and subsequently amended by Law No. 50 of 28 March 2014 and Law No. 186 of 15 December 2014, individuals, non-profit entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of Decree No. 917) resident in Italy who hold investments abroad or have financial activities abroad or are the beneficial owners, under the Italian money-laundering law, provided by Italian Legislative Decree No. 231 of 21 November 2007, of investments abroad or foreign financial assets must, in certain circumstances, disclose the aforesaid to the Italian tax authorities in their income tax return (or, in case the income tax return is not due, in a proper form that must be filed within the same time as prescribed for the income tax return).

Furthermore, the above reporting requirement is not required to comply with respect to: (i) Notes deposited for management with qualified Italian financial intermediaries; (ii) contracts

entered into through Italian financial intermediaries intervention, upon condition that the items of income derived from the Notes have been subject to tax by the same intermediaries; or (iii) if the foreign investments are only composed by deposits and/or bank accounts and their aggregate value does not exceed a €15,000 threshold throughout the year.

EU Savings Tax Directive and its implementation in Italy

The European Union has adopted a Directive regarding the taxation of savings income in the form of interest payments (Council Directive 2003/48/EC of 3 June 2003). Italy has implemented the Directive through Legislative Decree No. 84 of 18 April 2005 ("Decree No. 84"). Under Decree No. 84, subject to a number of important conditions being met, in the case of Interest paid from 1 July 2005 (including the case of interest accrued on the Notes at the time of their disposal) to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, the Italian paying agents (i.e. banks, *società di intermediazione mobiliare* (SIMs), fiduciary companies, *società di gestione del risparmio* (SGRs), resident for tax purposes in Italy, permanent establishments in Italy of non-resident persons and any other economic operator resident for tax purposes in Italy paying interest for professional or commercial reasons) shall report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner. In certain circumstances the same reporting requirements must be complied with also in respect of interest paid to an entity established in another Member State to which interest is paid or for which interest is secured for the benefit of the beneficial owner, other than legal persons (with the exception of certain Finnish and Swedish entities), entities whose profits are taxed under general arrangements for business taxation and, in certain circumstance, UCITS recognised in accordance with Directive 2009/65/EEC.

On 10 November 2015, the Council of the European Union approved the Council Directive 2015/2060/EU (published in the Official Journal of the EU on 18 November 2015) which has repealed the EU Savings Directive with effect from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States. The repeal of the EU Savings Directive is needed in order to prevent overlap between the EU Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive No. 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive No. 2014/107/EU). The new regime under Council Directive 2011/16/EU (as amended) is in accordance with the Global Standard released by the Organisation for Economic Cooperation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the EU Saving Directive, although it does not impose withholding taxes.

With Law No. 114 of 9 July 2015, the Italian Parliament delegated the Government to implement Council Directive 2014/107/EU into domestic legislation (Council Directive 2011/16/EU has already been implemented in Italy through Legislative Decree No. 29 of 9

March 2014). The Minister of Economy and Finance issued the Decree of 28 December 2015 (published in the Official Gazette No. 303 of 31 December 2015) to implement Directive 2014/107/EU. However, the obligations of Member States, economic operators and paying agents under the EU Savings Directive shall continue to apply until 5 October 2016 (31 December 2016, with respect to the obligations under Article 13(2) of the EU Savings Directive) or until those obligations have been fulfilled.

Luxembourg Taxation

The following information is of a general nature and is based on the laws currently in force in Luxembourg. It specifically contains information on taxes on the income from the Notes withheld at source and provides an indication as to whether the Issuer assumes responsibility for the withholding of taxes at the source. It does not purport to be, nor should it be construed as, a complete analysis of all tax considerations relating to the Notes, whether in Luxembourg or elsewhere, or legal or tax advice. Prospective purchasers of the Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of the Notes payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of Luxembourg. This information is based upon the law as in effect on the date of this Base Prospectus. The information contained within this section is limited to Luxembourg withholding taxation issues, and prospective investors should not apply any information set out below to other areas, including (but not limited to) the legality of transactions involving the Notes.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature refers to Luxembourg tax law and/or concepts only.

A holder of the Notes may not become resident, or deemed to be resident, in Luxembourg by reason only of the holding of the Notes, or the execution, performance, delivery and/or enforcement of the Notes.

Withholding tax

All payments of interest and principal by a paying agent in Luxembourg in the context of the holding, disposal, redemption or repurchase of the Notes, which are not profit sharing, can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- i. the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005, as amended, which has introduced a 10 per cent. final (if the beneficial owner is an individual acting in the course of the management of his/her private wealth) withholding tax on savings income (i.e. with certain exemptions,

savings income within the meaning of the Luxembourg laws of 21 June 2005, as amended, implementing the EU Savings Directive – as defined below).

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg law of 23 December 2005, as amended, is assumed by a paying agent in Luxembourg within the meaning of this law and not by the Issuer.

- ii. pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals can opt to self declare and pay a 10 per cent. tax on savings income paid or ascribed by paying agents located in a Member State of the European Union other than Luxembourg, a Member State of the European Economic Area or in a State or territory which has concluded an agreement directly relating to the EU Savings Directive on the taxation of savings income.

The 10 per cent. withholding tax as described above or the 10 per cent. tax are final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

EU Savings Directive

On 3 June 2003, the EU Council of Economic and Finance Ministers adopted a new directive regarding the taxation of savings income in the form of interest payments ("**EU Savings Directive**"). The EU Savings Directive is, in principle, applied by Member States as from 1 July 2005 and has been implemented in Luxembourg by the laws of 21 June 2005. Under the directive, each Member State is required to provide to the tax authorities of another Member State details of payments of interest within the meaning of the EU Savings Directive or other similar income paid by a paying agent within the meaning of the EU Savings Directive, to an individual resident or certain types of entities called "residual entities", within the meaning of the EU Savings Directive (the "**Residual Entities**"), established in that other Member State (or certain dependent or associated territories). For a transitional period, however, Austria is instead required to apply an optional information reporting system whereby if a beneficial owner, within the meaning of the EU Savings Directive, does not comply with one of two procedures for information reporting, the relevant Member State will levy a withholding tax on payments to such beneficial owner at a rate of 35 per cent. The transitional period is to terminate at the end of first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments. See "European Union Directive on the Taxation of Savings Income in the Form of Interest Payments" (Council Directive 2003/48/EC).

Also with effect from 1 July 2005, a number of non-EU countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) and certain dependent or associated territories (Jersey, Guernsey, Isle of Man, Montserrat, British Virgin Islands, Netherlands Antilles and Aruba) have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent (within the meaning of the EU

Savings Directive) within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State.

On 10 November 2015, the Council of the European Union approved the Council Directive 2015/2060/EU (published in the Official Journal of the EU on 18 November 2015) which has repealed the EU Savings Directive with effect from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States. The repeal of the EU Savings Directive is needed in order to prevent overlap between the EU Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive No. 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive No. 2014/107/EU). The new regime under Council Directive 2011/16/EU (as amended) is in accordance with the Global Standard released by the Organisation for Economic Cooperation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the EU Saving Directive, although it does not impose withholding taxes.

Other Taxation issues

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States). However, Estonia has since stated that it will not participate.

The proposed FTT has a very broad scope and could, if introduced in its current form, apply to certain dealings in Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under current proposals the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain and has so far not developed into anything more concrete. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

United States Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended ("**FATCA**") impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain US payments by a "foreign financial institution", or "**FFI**" (as defined by FATCA)) to persons that fail to meet certain certification, reporting or related requirements. The Issuer is an Italian Nonreporting FI (as described below).

This withholding would not apply to payments on the Notes prior to 1 January 2019 and would only potentially apply to payments in respect of (i) any Notes characterized as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal income tax purposes that are issued after the "**grandfathering date**", which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified after the grandfathering date and (ii) any Notes characterized as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued on or before the grandfathering date, and additional Notes of the same series are issued after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA (each, an "**IGA**"). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives (or, in the case of certain exempt entities, a "**Nonreporting FI**"). Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being "**FATCA Withholding**") from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Italy have entered into an IGA (the "**US-Italy IGA**") based largely on the Model 1 IGA.

Since the Issuer is an Italian Nonreporting FI it will not be obliged to deduct any FATCA Withholding on payments it makes on the Notes. There can be no assurance, however, that in the future the Issuer will not be required to deduct FATCA Withholding from payments it makes on the Notes. Accordingly, the Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

Whilst the Notes are cleared through Monte Titoli, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and Monte Titoli, given that each of the entities in the payment chain between the Issuer and the participants in Monte Titoli is a major financial institution whose business is

dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to payments they may receive in connection with the Notes.

SUBSCRIPTION AND SALE

Dealer Agreement

Notes may be sold from time to time by the Issuer to any one or more of Banca IMI S.p.A., Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Commerzbank Aktiengesellschaft, Crédit Agricole Corporate and Investment Bank, Credit Suisse Securities (Europe) Limited, Deutsche Bank AG, London Branch, HSBC Bank plc, J.P. Morgan Securities plc, Merrill Lynch International, Morgan Stanley & Co. International plc, MPS Capital Services Banca per le Imprese S.p.A., Nomura International plc, Société Générale, UBS Limited, UniCredit Bank AG and Mediobanca – Banca di Credito Finanziario S.p.A. (the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuer to, and purchased by, Dealers are set out in a dealer agreement dated 20 May 2015 (the "**Dealer Agreement**") and made between the Issuer, the Representative of the Noteholders and the Dealers, as amended and supplemented from time to time. If in the case of any Tranche of Notes the method of distribution is an agreement between the Issuer and a single Dealer for that Tranche to be issued by the Issuer and subscribed by that Dealer, the method of distribution will be described in the relevant Final Terms as "Non-Syndicated" and the name of that Dealer and any other interest of that Dealer which is material to the issue of that Tranche beyond the fact of the appointment of that Dealer will be set out in the relevant Final Terms. If in the case of any Tranche of Notes the method of distribution is an agreement between the Issuer and more than one Dealer for that Tranche to be issued by the Issuer and subscribed by those Dealers, the method of distribution will be described in the relevant Final Terms as "Syndicated", the obligations of those Dealers to subscribe the relevant Notes will be joint and several and the names and addresses of those Dealers and any other interests of any of those Dealers which is material to the issue of that Tranche beyond the fact of the appointment of those Dealers (including whether any of those Dealers has also been appointed to act as Stabilising Manager in relation to that Tranche) will be set out in the relevant Final Terms.

Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be subscribed by the Dealer(s) and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such subscription. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

Subscription Agreements

Any agreement between CDP, the Representative of the Noteholders and any one or more of the Dealers and/or any additional or other dealers, from time to time for the sale and purchase of Notes (a "**Subscription Agreement**" and each Dealer party thereto, a "**Relevant Dealer**") will *inter alia* make provision for the price at which the relevant Notes will be purchased by

the Relevant Dealers and the commissions or other agreed deductibles (if any) payable or allowable by CDP in respect of such purchase.

Each Subscription Agreement will also provide for the appointment of the Representative of the Noteholders by the Relevant Dealer(s) as initial holder(s) of the Notes then being issued.

Selling restrictions

General selling restrictions

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will comply to the best of its knowledge and belief with all relevant laws, regulations and directives in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms and neither CDP nor any other Dealer shall have responsibility therefor. Persons into whose hands the Base Prospectus or any Final Terms comes are required by CDP and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or possess, distribute or publish this Base Prospectus or any Final Terms or any related offering material, in all cases at their own expense.

The Dealer Agreement provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in this paragraph.

Selling restrictions may be supplemented or modified with the agreement of CDP. Any such supplement or modification will be set out in a supplement to this Base Prospectus or in the relevant Final Terms (in case of a supplement or modification only to a particular Tranche of Notes).

Republic of Italy

The offering of the Notes has not been registered pursuant to Italian securities legislation and, accordingly, each Dealer has represented and agreed that, save as set out below, it has not offered or sold, and will not offer or sell, any Notes in the Republic of Italy in an offer to the public and that sales of the Notes in the Republic of Italy shall be effected in accordance with all Italian securities, tax and exchange control and other applicable laws and regulation.

Accordingly, each of the Dealers has represented and agreed that it will not offer, sell or deliver any Notes or distribute copies of the Base Prospectus and any other document relating to the Notes in the Republic of Italy except:

- (1) to "qualified investors", as defined in Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended ("**Decree No. 58**") and defined in Article 34-ter, paragraph 1,

letter b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended ("**Regulation No. 11971**"); or

- (2) that it may offer, sell or deliver Notes or distribute copies of any prospectus relating to such Notes in an offer to the public in the period commencing on the date of publication of such prospectus, provided that such prospectus has been approved in another Relevant Member State and notified to CONSOB, all in accordance with the Prospectus Directive, as implemented in Italy under Decree No. 58 and Regulation No. 11971, and ending on the date which is 12 months after the date of publication of such prospectus; or
- (3) in any other circumstances where an express exemption from compliance with the offer restrictions applies, as provided under Article 100 of Decree No. 58 and Article 34-ter of Regulation No. 11971.

Any such offer, sale or delivery of the Notes or distribution of copies of the Base Prospectus or any other document relating to the Notes in the Republic of Italy must be:

- (a) made by investment firms, bank or financial intermediary permitted to conduct such activities in the Republic of Italy in accordance with the Banking Act, Decree No. 58, CONSOB Regulation No. 16190 of 29 October 2007, as amended and any other applicable laws and regulations;
- (b) in compliance with Article 129 of the Banking Act and the implementation guidelines of the Bank of Italy, as amended from time to time, pursuant to which the Bank of Italy may request information on the Securities in the Republic of Italy; and
- (c) in compliance with any other applicable notification requirement or limitation which may be imposed by CONSOB or the Bank of Italy.

Investors should also note that, in any subsequent distribution of the Notes on the secondary market in the Republic of Italy, Article 100-bis of Decree No. 58 may require compliance with the law relating to offers to the public of securities and with the prospectus requirement rules under Decree No. 58 and Regulation No. 11971. Furthermore, where the Notes are placed solely with "qualified investors" and are then systematically resold on the secondary market at any time in the 12 months following such placing, purchasers of Notes who are acting outside of the course of their business or profession may in certain circumstances be entitled to declare such purchase void and, in addition, to claim damages from any authorised person at whose premises the Notes were purchased, unless an exemption provided for under Decree No. 58 applies.

United States of America

The applicable Final Terms will confirm whether the Issuer is Category 1, Category 2 or Category 3 for the purposes of Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering of Notes comprising any Series, any offer or sale of Notes within the United States by any Dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

The Notes have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law no. 25 of 1948, as amended; the "**FIEL**") and each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it has not offered or sold and it will not offer or sell any Notes, directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others for re-offering or resale, directly or indirectly, in Japan or to, or for the benefit of, a resident of Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEL and any other applicable laws, regulations and ministerial guidelines of Japan.

- (b) ***Qualified investors***: at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(c) *Fewer than 150 offerees*: at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or

(d) *Other exempt offers*: at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive.

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision:

(a) the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State;
